Planning for Resilient Small and Medium-Sized Cities in Ghana

Stephen Kofi Diko, Seth Asare Okyere, Stephen Leonard Mensah, Louis Kusi Frimpong, 2025-09-10 Planning for Resilient Small and Medium Sized Cities in Ghana explores the resilience and planning dynamics and complexities of rapid urban transitions in Ghana s small and medium sized cities SMCs and their implications for Africa and the Global South The book argues that Ghana s urban future may have more to do with the steady growth of SMCs where urban consolidation is gradually taking a foothold Recognizing that Ghana s primary cities are well known to be socio ecological hotspots of risk reactive urban planning and entrenched inequalities of alarming proportions this book asks would SMCs follow these troubling realities and trajectories in large cities or leapfrog to resilient futures that work for all Through a range of interdisciplinary perspectives the contributions emphasize the need for integrated planning strategies to navigate socio ecological challenges and opportunities that SMCs face in terms of infrastructure governance and climate resilience By centering overlooked and understudied SMCs in Ghana s urban scholarship this book realigns resilience planning to the spaces and places emerging as the frontiers of socio ecological crises It will be of interest to students and researchers of city and regional planning urban studies geography environmental studies and science public policy development studies and public health as well as urban planners community development practitioners geographers environmental disaster and resilient personnel and policymakers

Private Finance for Development Hilary Devine, Adrian Peralta-Alva, Hoda Selim, Luc Eyraud, Preya Sharma, Ludger Wocken, 2021-05-14 The Covid 19 pandemic has aggravated the tension between large development needs in infrastructure and scarce public resources To alleviate this tension and promote a strong and job rich recovery from the crisis Africa needs to mobilize more financing from and to the private sector

Development and Poverty Reduction Yongnian Zheng, Jiwei Qian, 2019-10-28 Although the absolute number of poor people in the world has declined significantly in recent decades poverty reduction continues to be a very important issue There still are very large numbers of poor people relative poverty is

an increasingly concerning problem and progress on poverty reduction varies enormously from one part of the world to another. Factors contributing to poverty reduction include economic growth, economic integration and specific poverty reduction programs which are often initiated by Western countries. This book considers poverty reduction from a global perspective. Development and Poverty Reduction looks at a wide range of specific subjects across all continents. It highlights in particular how the issues are perceived from a non-Western perspective and especially how the rise of China is both having a profound impact on poverty reduction globally and also changing the overall way in which development and poverty reduction are approached. Chapter 4 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non-Commercial No Derivatives CC BY-NC-ND 4.0 license.

Disease Control Priorities, Third Edition (Volume 9) Dean T. Jamison, Hellen Gelband, Susan Horton, Prabhat Jha, Charles N. Mock, Rachel Nugent, 2017-12-06. As the culminating volume in the DCP3 series, volume 9 will provide an overview of DCP3 findings and methods, a summary of messages and substantive lessons to be taken from DCP3, and a further discussion of cross-cutting and synthesizing topics across the first eight volumes. The introductory chapters 1-3 in this volume take as their starting point the elements of the Essential Packages presented in the overview chapters of each volume. First, the chapter on intersectoral policy priorities for health includes fiscal and intersectoral policies and assembles a subset of the population policies and applies strict criteria for a low-income setting in order to propose a highest priority essential package. Second, the chapter on packages of care and delivery platforms for universal health coverage (UHC) includes health sector interventions primarily clinical and public health services and uses the same approach to propose a highest priority package of interventions and policies that meet similar criteria, provides cost estimates, and describes a pathway to UHC.

The New Scramble for Africa Pdraig R. Carmody, 2017-01-03. Once marginalized in the world economy, Africa today is a major global supplier of crucial raw materials like oil, uranium, and coltan. China's part in this story has loomed particularly large in recent years, and the American military footprint on the continent has also expanded. But a new scramble for resources, markets, and territory is now taking place in Africa, involving not just state but non-state actors, including Islamic fundamentalist and other rebel groups. The second edition of Pdraig Carmody's popular book explores the dynamics of the new scramble for African resources, markets, and territory, and the impact of current investment and competition on people, the environment, and political and economic development on the continent. Fully revised and updated throughout, its chapters explore old and new economic power interests in Africa: oil, minerals, timber, biofuels, land, food, and fisheries, and the nature and impacts of Asian and South African investment in manufacturing and other sectors. *The New Scramble for Africa* will be essential reading for students of African studies, international relations, and resource politics, as well as anyone interested in current affairs.
