attorneys and high ranking government officials became central to the conceptualization conduct and rationalization of US foreign policy Just as international law shaped empire so too did empire shape international law Legalist Empire shows how the American Society of International Law was animated by the same notions of civilization that justified the expansion of empire overseas Using the private papers and published writings of such figures as Elihu Root John Bassett Moore and James Brown Scott Coates shows how the newly created international law profession merged European influences with trends in American jurisprudence while appealing to elite notions of order reform and American identity By projecting an image of the United States as a unique force for law and civilization legalists reconciled American exceptionalism empire and an international rule of law Under their influence the nation became the world s leading advocate for the creation of an international court Although the legalist vision of world peace through voluntary adjudication foundered in the interwar period international lawyers through their ideas and their presence in halls of power continue to infuse vital debates about America s global role

Neuroteach Glenn Whitman,Ian Kelleher,2016-06-20 Teachers are brain changers Thus it would seem obvious that an understanding of the brain the organ of learning would be critical to a teacher s readiness to work with students Unfortunately in traditional public public charter private parochial and home schools across the country most teachers lack an understanding of how the brain receives filters consolidates and applies learning for both the short and long term Neuroteach was therefore written to help solve the problem teachers and school leaders have in knowing how to bring the growing body of educational neuroscience research into the design of their schools classrooms and work with each individual student It is our hope that Neuroteach will help ensure that one day every student regardless of zip code or school type will learn and develop with the guidance of a teacher who knows the research behind how his or her brain works and learns
