Document-Based Assessment Activities Marc Pioch, Jodene Smith, 2020-03-02 Today's students need to know how to evaluate sources and use evidence to support their conclusions. This K-12 resource for teachers provides instructional support as well as a variety of learning opportunities for students. Through the activities in this book, students will ask and answer compelling questions, analyze primary sources, approach learning through an inquiry lens, and hone their historical thinking skills. The lessons teach skills and strategies for analyzing historical documents, partnered with document-based assessments. Graphic organizer templates help students structure their analyses. This resource, written by Marc Pioch and Jodene Smith, prepares students for standardized tests and engages students with inquiry. The scaffolded approach to teaching analysis skills can be applied across grades K-12.

Creating Quality Literature Units Nancy Atlee, 2005 This essential reference provides instructions on writing literature units. Teachers can select any novel and design a comprehensive unit that incorporates activities that promote student understanding, literary analysis, and critical thinking. Your custom-made units will stretch students' abilities to think, write, and thoroughly understand the selected novel. Grades 4-8

Parallel Curriculum Units for Grades K-5 Marcia B. Imbeau, 2011-01-11 Since intelligence can be influenced by circumstance and environment, The Parallel Curriculum Model Unit K-5 shows elementary educators how to provide clear unit planning utilizing the empirical-based model. Broken out into 4 sections, this resource provides the following: 1. a chapter on each content unit in K-5 literacy, mathematics, social studies, and science using the Model; 2. a content framework based on national and content standards; 3. unit assessments; and 4. unit sequence as well as teacher reflection lessons. Approximately 5-7 lessons of each content area will be provided in every chapter in this handy resource. The opening chapter defines what The Parallel Curriculum is and discusses how this researched-based curriculum can be created and utilized for gifted learners, learners with special needs, as well as general education students. Recognizing that curricula should be flexible to meet the needs of all learners, The Parallel Curriculum Model Unit Book K-5 provides a educational rationale for developing a new curriculum model, gives a brief overview of the theoretical underpinnings of the model, and aims to help practitioners apply the specific units and lessons in the classroom.

Teaching Secondary and Middle School Mathematics Daniel J. Brahier, 2024-01-22 Teaching Secondary and Middle School Mathematics combines the latest developments in research, technology, and standards with a vibrant writing style to help teachers prepare for the excitement and challenges of teaching secondary and middle school mathematics. The book explores the mathematics teaching profession by examining the processes of planning, teaching, and assessing student progress through practical examples and recommendations. Beginning with an examination of what it means to teach and learn mathematics, the reader is led through the essential components of teaching, concluding with an examination of how teachers continue with professional development throughout their careers. Hundreds of citations are used to support the ideas presented in the text, and specific websites and other resources are presented for future study by the reader. Classroom scenarios are presented to engage the reader in thinking through specific challenges that are common in mathematics classrooms. The seventh edition has been updated and expanded with particular emphasis on the latest technology, standards, and other resources. The reader is introduced to the ways that students think and how to best meet their needs through planning that involves attention to differentiation, as well as how to manage a classroom for success. Features include: Following on from the sixth edition
