

Access the End-User Help Files

The Unity Client includes help files for end-users. These can be referenced at any time in the Unity Client either by pressing the **F1** button on your keyboard, or by clicking the **Help** button:

The help files are opened in a separate window.

Set Your Home Page

The **Home** button takes you to your configured **Home Page**.

To set a layout to be your Home Page, navigate to the desired layout and select **Make this layout my Home Page** from the Home button drop-down menu.

To reset your Home Page to the default, select **Reset Home Page** from the Home button drop-down menu.

Add Favorites

You can add the currently displayed layout to your list of favorites by performing the following steps:

1. Click the **Favorites** button:

2. Click **Add this layout to my favorites**.

The favorite can be accessed by clicking the Favorites button again and selecting the favorite from the list.

Use the Personal Page

Many OnBase items and layouts can be added to your Personal Page as tiles. Tiles serve as easy access points to the files, items, and interfaces of your choice.

The Personal Page can be opened by clicking the **Personal Page** ribbon button:

Use the Personal Page (Continued)

To add an item or layout to the Personal Page, right-click the object and select **Add To Personal Page**. If the right-click option is unavailable, the Personal Page option may be included under the **Send To** functions or, as is the case with Custom Query results, as a special menu option to **Add to Personal Page**.

When adding an entire layout to your Personal Page, select **Personal Page | Add this layout to my Personal Page** from the ribbon menu.

Document Retrieval

You can retrieve documents in the Unity Client based on the document's keyword values, the text contained within the document, or the note information contained on a document. The following example describes how to retrieve documents based on their keyword values.

To access Document Retrieval:

1. In the **Documents** ribbon group on the **Home** tab, click **Retrieval**.

2. In the **Document Retrieval** pane, select a **Document Type Group**.
Select a **Document Type**.

Note: The information contained in the panel may dynamically change based on the Document Type Group or Document Type you selected.

3. If desired, you can specify a date range to only return documents that were created or imported between a certain range of dates.
4. A list of keyword fields displays below the date range.

Enter values for the keywords that are displayed. You can enter as much or as little information you know.

Note: Some searches require you to enter at least one keyword value. Search requirements are determined by your system administrator.

5. When you have entered all search criteria, click the **Find** button at the bottom of the panel.
