Univen Application For Nursing 2015:

Health, Disability and the Capability Approach Sophie Mitra, Jennifer Prah Ruger, 2019-04-17 This book focuses on two areas of substantial and growing importance to the human development and capability approach health and disability The research on disability health and the capability approach has been diverse in the topics it covers and the conceptual frameworks and methodologies it uses beginning over a decade and a half ago in health and more than a decade ago in disability This book shares a set of contributions in these two areas the first set of chapters focusing on disability and the second set focusing on health and the health capability paradigm HCP in particular This book was originally published as a special issue of the Journal of Human Development and Capabilities *Resurgence and Revalorization of Indigenous Knowledge Systems in the Contemporary Society* Masenya, Tlou Maggie, Bhuda, Monicca Thulisile, 2025-05-08 Indigenous knowledge is the comprehensive body of knowledge that locals accumulate from life experience unofficial research and close observation of their surroundings within a particular culture It connects the entirety of nature and the components that sustain life to the survival of every human being Additionally it gives specific community conditions in respect to the environment and offers workable answers to people's problems As a result by preserving indigenous knowledge systems indigenous knowledge may provide value to the community by offering innovative solutions to social environmental and economic issues *Resurgence and Revalorization of Indigenous Knowledge Systems in the Contemporary Society* explores the role of indigenous knowledge in the contemporary society Furthermore it discusses the importance of preserving and sharing indigenous knowledge for community development Covering topics such as epistemic diversity traditional load and indigenous curricula this book is an excellent resource for sociologists policymakers government officials environmentalists educators records managers professionals researchers scholars academicians and more **The Urban Ecologies of Divided Cities** Amira Osman, John Nagle, Sabyasachi Tripathi, 2023-06-12 The book discusses how division affects the fabric of cities and people's sense of identity and agency and are reflected in physical features architecture and urban planning The question of divided cities represents a complex and multistranded urban Ecology at once both social and spatial it cannot be limited to a single science or discipline such as social or spatial fields This suggests integrated and cross disciplinary understandings as well as integrated or parallel approaches and solutions Urban ecologies of division manifest in multiple forms One of their most palpable expressions is conflict with parallels around the world and often with correlations in the spatial fabric Violence in such contexts is often a surface expression of deeper socio economic or ideological differences Whether as a result of intervention by authority or by dissent between groups a divided city inevitably becomes a place of conflict in various forms and intensity eroding the joy of living and sense of collective belonging to the detriment of all In effect it erodes the collective advantage of being part of a more unified society A city exists in collections of social structures which mutually form a society A divided city implies divided social structures and in consequence a divided society The

papers compiled in this book present many case studies of divided cities discussing the different causes of divisions and their effects on societies Some of the causes can be linked to conflicts wars colonialism or legislative political systems In response to the serious challenges resulting from these divisions the book aims to provide opportunities for new approaches and possibilities for new interventions and solutions making it significant to urban planners architects and policymakers
