Reading Coetzee's Women Sue Kossew, Melinda Harvey, 2019-07-24 This is the first book to focus entirely on the under researched but crucial topic of women in the work of J M Coetzee generally regarded as one of the world s most significant living writers The fourteen essays in this collection raise the central issue of how Coetzee s texts address the woman question There is a focus on Coetzee s representation of women engagement with women writers and the ethics of what has been termed his ventriloquism of women s voices in his fiction and autobiographical writings right up to his most recent novel The Schooldays of Jesus As such this collection makes important links between the disciplines of literary and gender studies It includes essays by well known Coetzee scholars as well as by emerging scholars from around the world providing fascinating and timely global insights into how his works are read from differing cultural and scholarly perspectives *Halvorsen: Sharing Knowledge, Transforming Societi*, 2023-01-10 In June 2016 the Norwegian Programme for Capacity Development in Higher Education and Research for Development Norhed hosted a conference on the theme of knowledge for development in an attempt to shift the focus of the programme towards its academic content This book follows up on that event The conference highlighted the usefulness of presenting the value of Norhed s different projects to the world showing how they improve knowledge and expand access to it through co operation A wish for more meta knowledge was also expressed and this gives rise to the following questions Is this way of co operating contributing to the growth of independent post colonial knowledge production in the South based on analyses of local data and experiences in ways that are relevant to our shared

future Does the growth of academic independence as well as greater equality and the ability to develop theories different to those imposed by the better off parts of the world give rise to deeper understandings and better explanations Does it at least spread the ability to translate existing methodologies in ways that add meaning to observations of local context and data and thus enhance the relevance and influence of the academic profession locally and internationally This book in its varied contributions does not provide definite answers to these questions but it does show that Norhed is a step in the right direction Norhed is an attempt to fund collaboration within and between higher education institutions We know that both the uniqueness of this programme and ideas of how to better utilise the learning and experience emerging from it call for more elaboration and broader dissemination before we can offer further guidance on how to do things better This book is a first attempt

The Changing Space Economy of City-Regions Koech Cheruiyot, 2017-10-30 This book addresses the South African Space Economy and its stark disparities and dualisms through an assessment of the Gauteng City Region the largest economic agglomeration in the country and on a continent bedevilled by a myriad of development challenges The book's focus on understanding the overall character of Gauteng City Region's Space Economy through data mining analysis and mapping comprehensively supplements the Space Economy literature on the region It covers the disparities exacerbated by an overlay of apartheid planning ideology and top down regional development based on selective encouragement of manufacturing investments in growth points or poles and how implementation of past policies intended to cure these disparities have yielded mixed results This

book further offers the Gauteng City Region as a microcosm of the national economy in the form of evident significant placed based variations in the intensity and character of economic structure that on the one hand enjoys massive agglomeration economies while on the other has high levels of poverty and large numbers of people living below the Minimum Living Level This book should appeal to urban studies specialists economists and development studies researchers in the Global South

(Deon) P. van Tonder,Washington T. Dudu,2023-03-01 This book critically examines the role of governments in promoting parity during and in post pandemic education This comes from the realisation that the pandemic has deepened the crisis by depleting the meagre resources that African countries might have devoted to normative educational practices where those on the margins would have been pushed further behind while the privileged would have been further initiated into the cultural and capital flows of private schools and historically research intensive institutions of higher learning This has far reaching implications for the education of underprivileged citizens and education particularly modes and modalities of delivery has to be reimagined to subvert the challenges wrought by the pandemic This book significantly bridges the gap between the pre and post COVID 19 pandemic pedagogical practices and the erstwhile modalities that have been resilient over time The book focuses on ways to stave off pedagogical challenges that face countries as the global pandemic makes its mark **Proud**

Boys and the White Ethnostate Alexandra Minna Stern,2019-07-16 What is the alt right What do they believe and how did they take center stage in the American social and political consciousness Historian Alexandra Minna Stern excavates the alt right memes that have erupted online and digs to the root of the far right s motivations their deep seated fear of an oncoming white genocide that can only be remedied through aggressive action to reclaim white power The alt right has expanded significantly throughout America s cultural political and digital landscapes racist sexist and homophobic beliefs that were previously unspeakable have become commonplace normalized and accepted endangering American democracy and society as a whole When asked to address the Proud Boys and growing far right violence President Trump directed the group to stand back and stand by and just two weeks before President Joe Biden s inauguration a white supremacist mob breached the US Capitol earning praise from the Proud Boys leader amongst threats of future violence In order to dismantle the destructive movement that has invaded our public consciousness and threatens American democracy we must first understand the core beliefs that drive the alt right Through careful analysis Stern brings awareness to the underlying

concepts that guide the alt right and its overlapping forms of racism xenophobia and transphobia She explains the key ideas of red pilling strategic trolling gender essentialism and the alt right s ultimate fantasy a future where minorities have been cleansed from the body politic and a white ethnostate is established in the United States By unearthing the hidden mechanisms that power white nationalism Stern reveals just how pervasive the far right truly is *Developmentalism, Dependency, and the State* Christopher Hope,2020-08-17 Why does Namibia s economy look the way it does today Was the reliance on raw materials for exports and on the service sector for employment an inevitability And for what reasons has the manufacturing sector the vehicle for economic development for many now high income countries throughout the 19th and 20th centuries seen its growth held back With these questions in mind this book offers an extensive analysis of industrial development and economic change in Namibia since 1900 exploring their causes trajectory vicissitudes context and politics Its focus is particularly on the motivations behind the economic decisions of the state arguing that power relations both internationally and domestically have held firm a status quo that has resisted efforts towards profound economic change This work is the first in depth economic study covering both the colonial and independence eras of Namibia s history and provides the first history of the country s manufacturing sector
