University Of Mpumalanga Program For 2016:

Online Distance Learning Course Design and Multimedia in E-Learning Lopes, Ana Paula, Soares, Filomena, 2022-03-11 In recent years the rampant development of worldwide communications and powerful modern technologies has reformulated the idea of distance learning and the transmission of higher education content Combined with these new developments and the outcomes of the COVID 19 pandemic there is an apparent need for a thorough discussion on all features of e learning Online Distance Learning Course Design and Multimedia in E Learning disseminates research experiences and philosophies surrounding innovation within higher education online teaching and learning environments It includes case studies of relevant and fruitful applications practical challenges and examinations of the most recent innovations Covering topics such as online management education student engagement and gamification this book is an essential resource for academicians researchers educators pre service educators principals administrators consultants instructional designers technologists computer scientists and policymakers *Higher Education Transformation in Africa* Emnet Tadesse Woldegiorgis, Logan Govender, Dennis Zami Atibuni, 2024-11-05 This book critically interrogates the notion of transformation in higher education focusing on epistemological and structural issues in postcolonial and contemporary Africa The book considers the multifaceted challenges facing higher education in the continent and uses the concept of transformation as a common thread weaving through a range of issues including epistemology identity relevance research collaboration and decoloniality Arguing for a holistic approach towards progressive and innovative education systems the book calls for a fundamental transformation that expands access enhances quality and competitiveness addresses past injustices and improves the capacity to act together for a more sustainable and just future Overall the book makes a powerful case for the power of transformation in higher education to shape the social economic and cultural fabric of society This book s critical evaluation of knowledge production in Africa will be an important read for researchers and policymakers involved in Africa s higher education sector *Annual Report* South Africa. Department of Basic Education, 2016 **South African Schooling: The Enigma of Inequality** Nic Spaull, Jonathan D. Jansen, 2019-11-05 This volume brings together many of South Africa s leading scholars of education and covers the full range of South African schooling from financing and policy reform to in depth discussions of literacy numeracy teacher development and curriculum change The book moves beyond a historical analysis and provides an inside view of the questions South African scholars are now grappling with Are there different and preferential equilibria we have not yet thought of or explored and if so what are they In practical terms how does one get to a more equitable distribution of teachers resources and learning outcomes While decidedly local these questions resonate throughout the developing world South Africa today is the most unequal country in the world The richest 10% of South Africans lay claim to 65% of national income and 90% of national wealth This is the largest 90 10 gap in the world and one that is reflected in the schooling system Two decades after apartheid it is still the case that the life chances of

most South African children are determined not by their ability or the result of hard work and determination but instead by the colour of their skin the province of their birth and the wealth of their parents Looking back on almost three decades of democracy in South Africa it is this stubbornness of inequality and its patterns of persistence that demands explanation justification and analysis This is a landmark book on basic education in South Africa an essential volume for those interested in learning outcomes and their inequality in South Africa The various chapters present conceptually and empirically sophisticated analyses of learning outcomes across divisions of race class and place The book brings together the wealth of decades of research output from top quality researchers to explore what has improved what has not and why Prof Lant Pritchett Harvard University There is much wisdom in this collection from many of the best education analysts in South Africa No surprise that they conclude that without a large and sustained expansion in well trained teachers early childhood education and adequate school resources South Africa will continue to sacrifice its people s future to maintaining the privileges of the few Prof Martin Carnoy Stanford University Altogether one can derive from this very valuable volume if not an exact blueprint for the future then certainly at least a crucial and evidence based itinerary for the next few steps Dr Luis Crouch RTI

Climate Change and Air Pollution Rais Akhtar, Cosimo

Palagiano, 2017-10-05 This book discusses regional and international climate change air pollution and human health scenarios The research from both industrialized and developing countries focuses on region specific perspectives of climate change impacts on air pollution After analyzing the variations of climate data over recent decades the authors consider the different effects of climate change on air pollution and health As stressed by the IPCC pollen smoke and ozone levels are likely to increase in a warming world affecting the health of residents of major cities Rising temperatures will worsen air quality through a combination of more ozone in cities bigger wild fires and worse pollen outbreaks according to a major UN climate report The report follows the World Health Organization in finding that air pollution is the world s greatest environmental health risk killing 7 million people in 2014 compared to 0.4 million deaths due to malaria Deteriorating air quality will most affect the elderly children people with chronic ill health and expectant mothers Another report suggests that more than 5.5 million people die prematurely each year due to air pollution with over half of those deaths occurring in China

and India A study on the air pollution in the USA suggests that more than half of US population lives in areas with potentially dangerous air pollution and about six out of 10 of the top cities for air pollution in the USA are located in the state of California In the face of future climate change scientists have urged stronger emission controls to avoid worsening air pollution and the associated exacerbation of health problems especially in more populated regions of the world It is hoped that the implementation of the Paris Climate Agreement will help minimize air pollution Additionally the authors consider the various measures that different countries and groups of countries like the European Union have adopted to mitigate the problems arising from climate change and to safeguard the health of population The book examines the increasing incidence of diseases largely caused by climate change The countries regions covered in this study include the USA Northern Europe U K Southern Europe Italy Canada Australia East Asia Russia Hong Kong Taiwan Thailand Malaysia Indonesia India South Africa Mexico Brazil Caribbean countries and Argentina
