Gratitude Question

Hey, bro! Or I guess, hi bestie (best friend). You know they say blood is thicker than water, but I can name plenty of times where water was there and blood wasn't.

I remember the neon sticky notes you left on my chocolate milk, the very first day I planned to organize health campaigns at school. It made a difference when I felt like giving up. The little things make the biggest difference.

In high school, when I was sick. You always come to my house to check on me and even till night you are there with me. Even at the point of going to the hospital you carried me at your back to the hospital. Not even get me started on how you help me write my assignment and make sure everything was in order before I resume school. You showed me the true meaning of friendship .

When I needed to give my speech at Lead City University Model United Nation conference and start in my tennis tournament, you paid for my transportation fee and supporting me the entire way. You've helped me realize that: to willingly serve is to love. I am lucky to have you.

Community Question

Mummy I am heading to the river to fetch water!

Alright, son, be fast-ooo! Ok ma. When I reached the river, I noticed that about 90% of the water was murky. Upon reaching home, I collected some samples. I realized that true contamination wasn't just in the water; it was in the divide between knowledge and action.

At grade 9, I started thinking about how to make a big difference in my community. Through data collection and analysis of river contamination levels, I identify my passion between science and community. It looks simple at first, but the challenge lies in processing the data into meaningful information for my 6300+ community members to educate them on cholera. Along the way, I have understood the cultural divide that often exists between scientific understanding and community
