Assessing Academic Literacy in a Multilingual Society Albert Weideman, John Read, Theo du Plessis, 2020-11-02

South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy. The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a minority of the national population are native speakers of these languages. Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools. The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully. The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience.

Universities, the Citizen Scholar and the Future of Higher Education J. Arvanitakis, D. Hornsby, 2016-06-01

The future of higher education is in question as universities struggle to remain relevant to the present and future needs of society. The context in which learning occurs is rapidly changing and those engaged and interested in the place and position of university education need to figure out to adapt. This book embodies a vision for higher education where graduate attributes and proficiencies are at the core of the academic project where degree programs move beyond disciplinary content and where students are encouraged to be Citizen Scholars. Through a series of cross disciplinary and contextual cases the contributors to this book articulate how this vision can be achieved in our pedagogical environments.

Future proofing higher education Hidden Pretoria Johan Swart, 2019-10-01. Despite being South Africa's capital city Pretoria has often played a supporting role to bold and brash Johannesburg and Cape Town's cosmopolitan charms. However when it comes to architectural heritage the Jacaranda City is well endowed. From the skyline dominating Union Buildings and Voortrekker Monument to the imposing edifices of its administrative precincts Pretoria might be deserving of a second moniker the city of sandstone brick and granite. But when you look beyond the impressive facades soaring columns and linear planes of buildings that were intended to convey power and authority you'll find light filled interiors embellished with decorative touches that are only hinted at from the outside. Murals mosaics domes galleries stained glass windows gleaming brass and impressive woodwork are often hidden from view behind doors that are closed to the public. And even those museums buildings and places of worship that are open to all have noteworthy architectural and design features that are easily overlooked. The history of the city and of the country has been played out in many of the buildings featured in Hidden Pretoria. This book captures facets of our diverse heritage historic and contemporary so that a new generation might recognise the need to embrace the past in order to build our common future.

From Student to Urban Planner Tuna Taşan-Kok, Mark Oranje, 2017-12-06. For many young planners the noble intentions with going to planning school seem starkly out of place in the neoliberal worlds they have come to inhabit. For

some the huge gap between the power they thought they would have and what they actually do is not only worrying but also deeply discouraging But for some others practice means finding practical and creative solutions to overcome challenges and complexities How do young planners in different settings respond to seemingly similar situations like these What do they do give up adjust or fight back What role did their planning education play and could it have helped in preparing and assisting them to respond to the world they are encountering In this edited volume stories of young planners from sixteen countries that engage these questions are presented The sixteen cases range from settings with older established planning systems e g USA the Netherlands and the UK to settings where the system is less set e g Brazil being remodeled e g South Africa and Bosnia Herzegovina and under stress e g Turkey and Poland Each chapter explores what might be done differently to prepare young planners for the complexities and challenges of their real worlds This book not only points out what is absent but also offers planning educators an alternative vision The editors and esteemed contributors provide reflections and suggestions as to how this new generation of young planners can be supported to survive in embrace and change the world they are encountering and in the spirit of planning endeavor to change it for the better

From #RhodesMustFall Movements to #HumansMustFall Movements Artwell Nhemachena, Jairo Kangira, 2021-05-14 Might it be possible that the world is being migrated into an era where the imperial periphery will be increasingly governed through Artificial Intelligence AI and robotics designed to replace human beings Celebrated as efficient strong unfailing tireless precise and beyond corruption AI and robots are set to replace African leaders who are imperially deemed to be and consistently condemned as corrupt failed weak and inefficient But if these AI and robots are neo imperial tools and machinations the million dollar question is whether empire is not returning to recolonise the supposedly inefficient Africans via the new technologies and machinism Where Africans once celebrated their liberation war movements empire has emplaced what it calls liberation technologies designed to supposedly liberate African youths from their own states and governments led by liberation movements Where Africans once celebrated their liberation war movements empire has placed its own NGOs CSOs spewing liberal ideologies designed to ostensibly liberate African youths from their own supposedly failed and corrupt states and government leaders With African youths citizens allying not with their liberation movements but with the liberation technologies and liberal NGOs CSOs it is not surprising why African citizens oppose their states led Fast Track Land Redistribution Programmes while ironically they happily celebrate Fast Tracked COVID 19 Vaccines Posing the notion of HumansMustFall movements this book underscores ways in which empire is in a process of eternal return to 21st century Africa The book is crucial for scholars and activists in political science government studies sociology anthropology cultural studies history languages and communication studies security studies military studies and development studies

Higher Education - Reflections From the Field - Volume 1, 2023-11-02 COVID wrought havoc on the world's economic systems Higher education did not escape the ravages brought on by the pandemic as institutions of higher education around the world faced major upheavals

in their educational delivery systems Some institutions were prepared for the required transition to online learning Most were not Whether prepared or not educators rose to the challenge The innovativeness of educators met the challenges as digital learning replaced the face to face environment In fact some of the distance models proved so engaging that many students no longer desire a return to the face to face model As with all transitions some things were lost while others were gained This book examines practice in the field as institutions struggled to face the worst global pandemic in the last century The book is organized into four sections on The Perspectives of Higher Education COVID as a Catalyst for Change Embracing Online Learning as a Response to COVID and Post Covid The Way Forward It presents various perspectives from educators around the world to illustrate the struggles and triumphs of those facing new challenges and implementing new ideas to empower the educational process These discussions shed light on the impact of the pandemic and the future of higher education post COVID Higher education has been forever changed and higher education as it once was may never return While many questions arise the achievements in meeting and overcoming the pandemic illustrate the creativity and innovativeness of educators around the world who inspired future generations of learners to reach new heights of accomplishment even in the face of the pandemic Доклад Юнеско По Науке - 2015 - На пути к 2030 году UNESCO Publishing, ITMO University, 2017-03-06

researchers and professionals **The Stellenbosch Mafia** Pieter du Toit, 2019-07-15 About 50km outside of Cape Town lies the beautiful town of Stellenbosch nestled against vineyards and blue mountains that stretch to the sky Here reside some of South Africa's wealthiest individuals all male all Afrikaans and all stinking rich Johann Rupert Jannie Mouton Markus Jooste and Christo Weise to name a few Julius Malema refers to them scathingly as The Stellenbosch Mafia the very worst example of white monopoly capital But who really are these mega wealthy individuals and what influence do they exert not only on Stellenbosch but more broadly on South African society Author Pieter du Toit begins by exploring the roots of Stellenbosch one of the wealthiest towns in South Africa and arguably the cradle of Afrikanerdom This is the birthplace of apartheid leaders intellectuals newspaper empires and more He then closely examines this club of billionaires Who are they and crucially how are they connected What network of boardroom membership alliances and family connections exist Who are the old guard and who are the inkommers and what about the youngsters desperate to make their mark He looks at the collapse of Steinhoff what went wrong and whether there are other companies at risk of a similar fate He examines the control these men have over cultural life including pulling the strings in South Africa rugby **Developmentalism, Dependency, and the State: Industrial Development and Economic Change in Namibia since 1900** Christopher Hope, 2020-09-23 Why does Namibia's economy look the way it does today Was the reliance on raw materials for exports and on the service sector for employment an inevitability And for what reasons has the manufacturing sector the vehicle for economic development for many now high income countries throughout the 19th and 20th centuries seen its growth held back With these questions in mind this book offers an extensive analysis of industrial development and economic change in Namibia since 1900 exploring their causes trajectory vicissitudes context and politics Its focus is particularly on the motivations behind the economic decisions of the state arguing that power relations both internationally and domestically have held firm a status quo that has resisted efforts towards profound economic change This work is the first in depth economic study covering both the colonial and independence eras of Namibia's history and provides the first history of the country's manufacturing sector **Structural Transformation in South Africa** Antonio Andreoni, Pamela Mondliwa, Simon Roberts, Fiona Tregenna, 2021 Taking South Africa as an important case study of the challenges of structural transformation Structural Transformation in South Africa offers a new micro meso level framework and evidence linking country specific and global dynamics of change with a focus on the current challenges and opportunities faced by middle income countries Detailed analyses of industry groupings and interests in South Africa reveal the complex set of interlocking country specific factors which have hampered structural transformation over several decades but also the emerging productive areas and opportunities for structural change The structural transformation trajectory of South Africa presents a unique country case given its industrial structure concentration and highly internationalized economy as well as the objective of black economic empowerment Structural Transformation in South Africa links these micro meso dynamics to global forces driving economic

institutional and social change This include digital industrialization global value chain consolidation financialization environmental and other sustainability challenges which are reshaping structural transformation dynamics across middle income countries like South Africa While these new drivers of change are disrupting existing industries and interests in some areas in others they are reinforcing existing trends and configurations of power The book analyses the ways in which both the domestic and global drivers of structural transformation shape and in some cases are shaped by a country s political settlement and its evolution By focusing on the political economy of structural transformation the book disentangles the specific dynamics underlying the South African experience of the middle income country conundrum In so doing it brings to light the broader challenges faced by similar countries in achieving structural transformation via industrial policies
