Business and Society Danica Purg, Alenka Braček Lalić, Jennifer A. Pope, 2018-06-26 The world of business is constantly evolving and management education institutions will likely face a number of challenges in keeping up with these changes While most books focus on the needs of management education institutions this work addresses the needs of the corporate world in the era of the Fourth Industrial Revolution Featuring an extensive research study spanning 11 countries it offers a unique perspective on the business challenges and developmental needs of companies in emerging and recently emerged economies and on the missing links between those needs and management education Using both company specific and country level data the book provides businesses and educators with rare insights and recommendations on strengthening existing partnerships or establishing them anew between management education institutions and the corporate sector in order to make management education relevant for the 21st century The book argues that relevance should take the center stage of all higher education institutions in order to accomplish their third mission namely service to society This is especially important for management education institutions whose mission is to mold future managers and leaders who can have a significant influence on economic success and the wellbeing of society

Taking Comedy Seriously Jennalee Donian, 2018-12-31 This book explores stand up comedy as a relevant sociological phenomenon from a contemporary perspective as both a symptom of neoliberal capitalism and the locus specificus of socio political critique in the era of Empire It draws a feasible connection between the conspicuous rise in the art form s popularity over the past number of years and the dehumanizing and fracturing processes of the current dispensation that are increasingly becoming the defining experience of life in the contemporary era and to which understood in terms of the traditional humor theory of relief of which Sigmund Freud is key comedy serves as

an obvious palliative More than this Taking Comedy Seriously Stand Up s Dissident Potential in Mass Culture in the Context of the Neoliberal Domain of Empire questions the possibility of a contemporary aesthetics of humor given that much of the art form is disseminated and controlled by the mass media and as such complicit in its work In particular it argues that the ideological situation of global capitalism poses an obvious predicament for the possibility of a socio politically efficacious stand up comedy in that ironic and skeptical distance is already characteristic of postmodern cynicism incorporated into the social fabric itself effectively rendering the comedic technique of satire synonymous with so called political comedy altogether appropriated or at least compromised and subsequently impotent From where then does a site of resistance emerge Through an analysis of a range of contemporary televisual digital and literary examples from the comedic routines of American comedian and talk show host Ellen DeGeneres South African satirist Pieter Dirk Uys and South African born and now American comedic talk show sensation Trevor Noah this book argues that a contemporary political comedy is reliant on a structuring aesthetic logic built around dissent disruption and difference

At Our Wits' End Edward Dutton, Michael A. Woodley of Menie, 2018-12-20 We are becoming less intelligent This is the shocking yet fascinating message of *At Our Wits' End* The authors take us on a journey through the growing body of evidence that we are significantly less intelligent now than we were a hundred years ago The research proving this is at once profoundly thought provoking highly controversial and it s currently only read by academics But the authors are passionate that it cannot remain ensconced in the ivory tower any longer With *At Our Wits' End* they present the first ever popular scientific book on this crucially important issue They prove that intelligence which is strongly genetic was increasing up until the breakthrough of the Industrial Revolution because we were subject to the rigors of Darwinian Selection meaning that lots of surviving children was the preserve of the cleverest But since then they show intelligence has gone into rapid decline because large families are increasingly the preserve of the least intelligent The book explores how this change has occurred and crucially what its consequences will be for the future Can we find a way of reversing the decline of our IQ Or will we witness the collapse of civilization and the rise of a new Dark Age
