University Of California Riverside General Catalog 2014 2015:

Equivalence Amanda L. Golbeck, 2017-04-28 Equivalence Elizabeth L Scott at Berkeley is the compelling story of one pioneering statistician's relentless twenty year effort to promote the status of women in academe and science Part biography and part microhistory the book provides the context and background to understand Scott's masterfulness at using statistics to help solve societal problems In addition to being one of the first researchers to work at the interface of astronomy and statistics and an early practitioner of statistics using high speed computers Scott worked on an impressively broad range of questions in science from whether cloud seeding actually works to whether ozone depletion causes skin cancer Later in her career Scott became swept up in the academic women's movement She used her well developed scientific research skills together with the advocacy skills she had honed in such activities as raising funds for Martin Luther King Jr and keeping Free Speech Movement students out of jail toward policy making that would improve the condition of the academic workforce for women The book invites the reader into Scott's universe a window of inspiration made possible by the fact that she saved and dated every piece of paper that came across her desk **General Catalogue** University of California, Berkeley, 1923

Beyond Control James F. Barnett Jr., 2017-03-16 Beyond Control reveals the Mississippi as a waterway of change unnaturally confined by ever larger levees and control structures During the great flood of 1973 the current scoured a hole beneath the main structure near Baton Rouge and enlarged a pre existing football field size crater That night the Mississippi River nearly changed its course for a shorter and steeper path to the sea Such a map changing reconfiguration of the country s largest river would bear national significance as well as disastrous consequences for New Orleans and towns like Morgan City at the mouth of the Atchafalaya River Since 1973 the US Army Corps of Engineers Control Complex at Old River has kept the Mississippi from jumping out of its historic channel and plunging through the Atchafalaya Basin to the Gulf of Mexico Beyond Control traces the history of this phenomenon beginning with a major channel shift around 3 000 years ago By the time European colonists began to explore the Lower Mississippi Valley a unique confluence of waterways had formed where the Red River joined the Mississippi and the Atchafalaya River flowed out into the Atchafalaya Basin A series of human alterations to this potentially volatile web of rivers starting with a bend cutoff in 1831 by Captain Henry Miller Shreve set the forces in motion for the Mississippi s move into the Atchafalaya Basin Told against the backdrop of the Lower Mississippi River s impending diversion the book s chapters chronicle historic floods rising flood crests a changing strategy for flood protection and competing interests in the management of the Old River outlet Beyond Control is both a history and a close look at an inexorable living process happening now in the twenty first century Routledge Handbook of Critical Indigenous Studies Brendan Hokowhitu, Aileen Moreton-Robinson, Linda Tuhiwai-Smith, Chris Andersen, Steve Larkin, 2020-12-30 The Routledge Handbook of Critical Indigenous Studies is the first comprehensive overview of the rapidly expanding field of Indigenous scholarship The book is ambitious in scope ranging across disciplines and national boundaries with particular reference to the lived conditions of Indigenous peoples in the first world The contributors are all themselves Indigenous scholars who provide critical understandings of indigeneity in relation to ontology ways of being epistemology ways of knowing and axiology ways of doing with a view to providing insights into how Indigenous peoples and communities engage and examine the worlds in which they are immersed Sections include Indigenous Sovereignty Indigeneity in the 21st Century Indigenous Epistemologies The Field of Indigenous Studies Global Indigeneity This handbook contributes to the re centring of Indigenous knowledges providing material and ideational analyses of social political and cultural institutions and critiquing and considering how Indigenous peoples situate themselves within outside and in relation to dominant discourses dominant postcolonial cultures and prevailing Western thought This book will be of interest to scholars with an interest in Indigenous peoples across Literature History Sociology Critical Geographies Philosophy Cultural Studies Postcolonial Studies Native

Broke Laura T. Hamilton, Kelly Nielsen, 2021-02-16 Public research universities were previously able to provide excellent education to white families thanks to healthy government funding. However, that funding has all but dried up in recent decades as historically underrepresented students have gained greater access and now less prestigious public universities face major economic challenges. In *Broke*, Laura T. Hamilton and Kelly Nielsen examine virtually all aspects of campus life to show how the new economic order in public universities, particularly at two campuses in the renowned University of California system, affects students. For most of the twentieth century, they show, less affluent families of color paid with their taxes for wealthy white students to attend universities where their own offspring were not welcome. That changed as a subset of public research universities, some quite old, opted for a new approach, making racially and economically marginalized youth the lifeblood of the university. These new universities, however, have been particularly hard hit by austerity. To survive, they've had to adapt, finding new ways to secure funding and trim costs, but ultimately it's their students who pay the price in decreased services and inadequate infrastructure. The rise of new universities is a reminder that a world-class education for all is possible. *Broke* shows us how far we are from that ideal and sets out a path for how we could get there. *Military Review*, 2015 [The ^AOxford Handbook of Adolescent Substance Abuse](#) Robert A.

Zucker, Sandra A. Brown, 2019-08-01 This Handbook's content provides a definitive overview of the research knowledge base for adolescent substance abuse, the most significant social problem of adolescence. Its contributors are leading researchers in their fields, making the volume unique in the breadth as well as depth of its coverage. Topics covered range from basic neuroscience to genetics to behavioral precursors and correlates to social relationships to cultural variation to clinical correlates to social policy. The Handbook's comprehensive scope and the depth of its analysis make it suitable both as a text for graduate-level courses as well as a core reference for professionals in the field. *Catalog* University of Texas. Latin American Collection, 1969 **Directory of Corporate Counsel, Spring 2024 Edition**, [Perspectives on the 'Bilingual Advantage': Challenges and Opportunities](#) Peter Bright, Roberto Filippi, 2019-09-05 The claim that multilingual acquisition drives advantages in executive function is currently an issue of vigorous debate in academic literature. Critics argue that evidence for this advantage has been confounded by unsound or questionable methodological practices, with some investigators abandoning research in this area altogether, indicating either that there is no bilingual advantage or that it is impossible to capture and therefore rule out alternative explanations for group differences. Over the past decade, and against this backdrop, theory has developed from a relatively narrow focus on inhibitory control to incorporate theory of mind, rule-based learning, reactive and proactive control, visuo-spatial memory, and control of verbal interference in speech comprehension. Most recently, authors have claimed that the process of becoming bilingual may also impact on metacognitive abilities. The fundamental issue is whether the limited capacity and goal-directed selectivity of our executive system can

somehow be enhanced or otherwise profit from the continuous intense competition associated with communicating in multilingual environments. However, although this issue has received much attention in academic literature, the question of which cognitive mechanisms are most influenced by the enhanced competition associated with multilingual contexts remains unresolved. Therefore, rather than dismissing this important topic, we advocate a more systematic approach in which the effects of multilingual experience are assessed and interpreted across well-defined stages of cognitive development. We encourage a broad developmentally informed approach to plotting the trajectory of interactions between multi-language learning and cognitive development using a convergence of neuroimaging and behavioral methods across the whole lifespan. Moreover, we suggest that the current theoretical framing of the bilingual advantage is simplistic and this issue may limit attempts to identify specific mechanisms most likely to be modulated by multilingual experience. For example, there is a tendency in academic literature to treat executive function as an essentially unitary fronto-parietal system recruited in response to all manner of cognitive demand, yet performance across so-called executive function tasks is highly variable and intercorrelations are sometimes low. It may be the case that some higher-level mechanisms of executive function remain relatively unaffected while others are more sensitive to multilingual experience and that there may be disadvantages as well as advantages which themselves may be sensitive to factors such as age. In our view, there is an urgent need to take a more fine-grained approach to this issue so that the strength and direction of changes in diverse cognitive abilities associated with multilanguage acquisition can be better understood. This book compiles work from psychologists and neuroscientists who actively research whether how and the extent to which multilanguage acquisition promotes enhanced cognition or protects against age-related cognitive or neurological deterioration. We hope this collection encourages future efforts to drive theoretical progress well beyond the highly simplistic issue of whether the bilingual cognitive advantage is real or spurious.

Directory of Corporate Counsel, 2025 Edition In house, [Ecosystems of California](#) Harold Mooney, Erika Zavaleta, 2016-01-19 This long anticipated reference and sourcebook for California's remarkable ecological abundance provides an integrated assessment of each major ecosystem type: its distribution, structure, function, and management. A comprehensive synthesis of our knowledge about this biologically diverse state, *Ecosystems of California* covers the state from oceans to mountaintops using multiple lenses: past and present flora and fauna, aquatic and terrestrial, natural and managed. Each chapter evaluates natural processes for a specific ecosystem, describes drivers of change, and discusses how that ecosystem may be altered in the future. This book also explores the drivers of California's ecological patterns and the history of the state's various ecosystems, outlining how the challenges of climate change and invasive species and opportunities for regulation and stewardship could potentially affect the state's ecosystems. The text explicitly incorporates both human impacts and conservation and restoration efforts and shows how ecosystems support human well-being. Edited by two esteemed ecosystem ecologists and with overviews by leading experts on each ecosystem, this definitive work will be

indispensable for natural resource management and conservation professionals as well as for undergraduate or graduate students of California's environment and curious naturalists

Higher Education Policy in Developing and Western Nations Beverly Lindsay, 2022-03-07 Recognizing that institutes of higher education function simultaneously in local and global contexts this volume explores the applications of domestic and global policies in a range of industrialized nations in North America and Australia and developing ones of Brazil Indonesia Myanmar and in Southern Africa and the Caribbean The chapters focus on policies relating to global matters such as diversity STEM Science Technology Engineering and Mathematics innovations and development amid natural disasters and conflicts In each case authors consider how policies were envisioned how they compare to the realities of implementation and how far they have been successfully supported by the communities and translated into legislations and formal or informal programs Based upon decades of research and executive positions by senior scholars and perspectives of emerging professionals the volume concentrates on motifs that portray relationships among policies and comparative analysis that reveals the need for global collaborations This important book will be of great interest to researchers scholars postgraduates and government and philanthropic professionals in the fields of higher education public and educational policy comparative education and international affairs

Migration, Transnationalism, and Faith in Missiological Perspective Kirsteen Kim, Alexia Salvatierra, 2022-04-04 Los Angeles is a global crossroads of migrating communities that presents a case study of migration transnationalism and interfaith engagement with significant implications for thinking and practice in other global hubs This book weaves together contributions from internationally recognized scholars who were brought together for the 2020 Missiology Lectures at Fuller Theological Seminary They examine historical waves of migration European Protestant Asian Latino and Muslim into Southern California and use sociological missiological and theological methods to understand the experience of migration and its effects both on those who move and those who are already there The result shows how migrants are inspired and sustained by faith and spiritual resources how migration challenges faith communities about their identity and attitudes to others how faith communities in turn impact the migration landscape through immigrant integration and public advocacy and how migration forges new transnational and global ways of being in community and innovative religious movements The contributors put forward a mission theology of migration and suggest mission practices in response to the suffering caused by forced migration and the injustices of immigration systems
