Language and Institutional Identity in the Post-Apartheid South African Higher Education Leketi Makalela,2022-03-21 This book examines the intersections between education identity formation and language in post apartheid South Africa with specific attention to higher education It does so against the backdrop of the core argument that the sector plays a critical role in shaping re producing and perpetuating sectoral class sub national and national identities which in turn in the peculiar South African setting are almost invariably analogous with the historical fault lines determined and dictated by language as a marker of ethnic and racial identity The chapters in the book grapple with the nuances related to these intersections in the understanding that higher education language policies overt and or covert largely structure institutional cultures or what has been described as curriculum in higher education institutions Together the chapters examine the roles played by higher education by language policies and by the intersections of these policies and ethnolinguistic identities in either constructing and perpetuating or deconstructing ethnolinguistic identities upon which the

sector was founded The introductory chapter lays out the background to the entire book with an emphasis on the policy and practice perspectives on the intersections The middle chapters describe the so called White Universities Black Universities and Middle Man Minorities Universities The final chapter maps out future directions of the discourses on language and identity formation in South Africa s higher education *The Bright Side of Shame* Claude-Hélène Mayer, Elisabeth Vanderheiden, 2019-04-25 This book provides new ideas on how to work with and constructively transform shame on a theoretical and practical level and in various socio cultural contexts and professions It provides practical guidelines on dealing with shame on the basis of reflection counselling models exercises simulations specific psychotherapeutic approaches and auto didactical learning material so as to transform shame from a negatively experienced emotion into a mental health resource The book challenges theorists to adopt an interdisciplinary stance and to think outside the box Further it provides practitioners such as coaches counsellors therapists trainers and medical personnel with practical tools for transforming negative experiences and emotions In brief the book shows practitioners how to unlock the growth potential of individuals teams and organisations allowing them to develop constructively and positively *Knowledge for Justice* Halvorsen, Tor, Ibsen, Hilde, 2017-11-28 With the adoption of the United Nations Sustainable Development Goals SDGs and the Paris Agreement the purpose of development is being redefined in both social and environmental terms Despite pushback from conservative forces change is accelerating in many sectors To drive this transformation in ways that bring about social environmental and economic justice at a local national regional and global levels new knowledge and strong cross regional networks capable of foregrounding different realities needs and agendas will be essential In fact the power of knowledge matters today in ways that humanity has probably never experienced before placing an emphasis on the roles of research academics and universities In this collection an international diverse collection of scholars from the southern African and Nordic regions critically review the SDGs in relation to their own areas of expertise while placing the process of knowledge production in the spotlight In Part I the contributors provide a sober assessment of the obstacles that neo liberal hegemony presents to substantive transformation In Part Two lessons learned from North South research collaborations and academic exchanges are assessed in terms of their potential to offer real alternatives In Part III a set of case studies supply clear and nuanced analyses of the scale of the challenges faced in ensuring that no one is left behind This accessible and absorbing collection will be of interest to anyone interested in North South research networks and in the contemporary debates on the role of knowledge production The Southern African Nordic Centre SANORD is a network of higher education institutions that stretches across Denmark Finland Iceland Norway Sweden Botswana Namibia Malawi South Africa Zambia and Zimbabwe Universities in the southern African and Nordic regions that are not yet members are encouraged to join *Turning and Turning* Judith February, 2018-08-01 South Africans often are deeply polarised in our perspectives of the present and the past Our ways of seeing are fraught with division and we fail to understand the complexities when we do not see what lies

beneath the surface There is no denying that the Jacob Zuma presidency took a significant toll on South Africa exacerbating tensions and exposing the deep fractures that already exist in our society along the lines of race class and even ethnicity The Zuma years were marked by cases of corruption and state capture unprecedented in their brazenness and increased social protests many of which were accompanied by violence aggressive public discourse lack of respect for reason and an often disturbing resistance to meaningful engagement Importantly those years also placed enormous pressure on our democratic institutions many of which still bear the scars and challenged the sovereignty of the Constitution itself As an analyst and governance specialist at the Institute for Democracy in South Africa IDASA for twelve years February has had a unique perch Turning and turning is a snapshot of her IDASA years and the issues tackled which included work on the arms deal and its corrosive impact on democratic institutions IDASA's party funding campaign which February helped lead as well as work on accountability and transparency Combining analytical insight with personal observations and experience February highlights the complex process of building a strong democratic society and the difficulties of living in a constitutional democracy marked by soaring levels of inequality There is a need to reflect on and learn from the country's democratic journey if citizens are to shape our democracy effectively and to fulfill the promise of the Constitution for all South Africans
