Beyond Our Wildest Dreams Ineke van Kessel, 2000 The 1980s in South Africa were marked by protest violent confrontation and international sanctions Internally the country saw a bewildering growth of grassroots organizations including trade unions civic associations in the black townships student and other youth organizations church based groups and women s movements many of which operated under the umbrella of the United Democratic Front UDF Beyond Our Wildest Dreams explores the often conflicted relationship between the UDF s large scale resistance to apartheid and its everyday struggles at the local level In hindsight the UDF can be seen as a transitional front preparing the ground for leaders of the liberation movement to return from exile or prison and take over power But the founding fathers of the UDF initially had far more modest ambitions Interviews with Cachalia and other leading personalities in the UDF examine the organization s workings at the national level while stories of

ordinary people collected by the author illuminate the grassroots activism so important to the UDF's success. Even in South Africa, writes Ineke van Kessel, who covered the anti-apartheid movement as a journalist, resistance was not the obvious option for ordinary citizens. Van Kessel shows how these people were mobilized into forming a radical social movement that developed a highly flexible and innovative form of resistance that ultimately ended apartheid. A Survey of Race Relations in South Africa South African Institute of Race Relations, 1973 **Novel Nanomaterials**

Karthikeyan Krishnamoorthy, 2021-06-09 This book discusses novel nanomaterials and their various aspects. Chapters provide detailed information on new preparation routes for novel nanomaterials and their applications in supercapacitors,

nanogenerators, removal of industrial pollutants, biosensors, self-cleaning coatings, aquatic robotics, and the construction industry. **South African Pressclips**, 1992-05 **Working with indigenous knowledge**

Fhumulani M. Mulaudzi, Rachel T. Lebeso, 2022 The aim of the book is to assist both local and international scholars in articulating the scholarly discourse on indigenous health attitudes, practices, and experiences. The indigenous lens that was used to generate and disseminate indigenous knowledge in this book will strengthen indigenous scholarship, thus making it accessible to a wider audience. In addition, the information shared in this book will add value for scholars and assist them with the indigenous knowledge needed to address sustainable development goals. This book is timely and topical as the discourse on the decolonisation of the curriculum is widely debated in the higher education space. The discourse on the scholarship of indigenous knowledge as the tacit local knowledge that stems from cultural practices within communities has not been well articulated in the current health science education milieu. Indigenous knowledge has remained overlooked and undermined for a very long time, and the information remains untapped in local communities. The scholars who conducted the research on which this book is based unearthed a wealth of knowledge which was tacit in nature and translated it into implicit knowledge that can be documented and shared with other scholars globally. This knowledge will assist health care scholars in benefiting from knowledge, practices, and cultural beliefs that will assist them in health care planning, teaching, evidence-based practice, and further research.
