the evidentness of objects of scientific knowledge absolutely certain assent to such beliefs is therefore epistemically unjustifiable This epistemology which breaks with the previous Christian tradition is classically formulated in John Locke's *An Essay concerning Human Understanding* first edition 1690 This study argues that this epistemology of belief can be traced back to the English theologian Richard Hooker 1554-1600 whose thought was then developed over the course of the seventeenth century Rule of Faith Controversy which acted as the crucible for these new ideas on faith evidence and certainty Voak shows that the key thinkers in this process including Locke himself were aware that this epistemology came from Hooker and used him in formulating their own influential positions

The bibliographer's manual of English literature, containing an account of rare, curious, and useful books, publ. in or relating to Great Britain and Ireland William Thomas Lowndes,1861 *A Novel Hope?* Bernard Marcus Woodley,2025-06-13 Christians today are often struggling with many of the same theological problems that Victorians were especially regarding hell and the God of love One answer to these questions found in nineteenth century Britain was the seemingly surprising reappearance of the early Christian eschatological theory of universalism the belief that all of humanity will be saved Even though this re-emergence has already been acknowledged by scholars of Victorianism its extent has been widely underestimated This book then aims to describe why universalism became an increasingly viable option in a time of growing religious doubt and especially how it established itself in and with the help of the century's fiction not only in the more overtly universalist novels of Gaskell and Anne Brontë but also across works ranging from Dickens Gissing Linton and Oliphant all the way to Ward and Wells
