Lesson Plan William G. Bowen, Michael McPherson, 2017-10-31 Why and how American colleges and universities need to change in order to meet the nation s pressing needs American higher education faces some serious problems but they are not the ones most people think In this brief and accessible book two leading experts show that many so called crises from the idea that typical students are drowning in debt to the belief that tuition increases are being driven by administrative bloat are exaggerated or simply false At the same time many real problems from the high dropout rate to inefficient faculty staffing have received far too little attention In response William G Bowen and Michael S McPherson provide a frank assessment of the biggest challenges confronting higher education and propose a bold agenda for reengineering essential elements of the system to meet them The result promises to help shape the debate about higher education for years to come Lesson Plan shows that for all of its accomplishments higher education today is falling short when it comes to vital national needs Too many undergraduates are dropping out or taking too long to graduate minorities and the poor fare worse than their peers reinforcing inequality and college is unaffordable for too many But these problems could be greatly reduced by making significant changes including targeting federal and state funding more efficiently allocating less money for merit aid and more to match financial need creating a respected teaching corps that would include nontenure faculty improving basic courses in fields such as math by combining adaptive learning and face to face teaching strengthening leadership and encouraging more risk taking It won t be easy for faculty administrators trustees and legislators to make such sweeping changes but only by doing so will they make it possible for our colleges and universities to meet the nation s demands tomorrow and into the future

Fulton-Taylor,2019-08-16

The number one cause of contentious relationships in society is patriarchy. It's a system that puts men at the head of the family and defines how women relate to one another, how men and women engage, and social responsibilities for women as leaders. But it's up to those who feel its impact most, women, to change the narrative. In *The Lies We Were Told*, author Dr. Eloise M. Fulton Taylor challenges us as women to see one another differently. It offers a new vision that sees women against the backdrop of a well-established but faulty system meant to control us. Patriarchy linked women's stability to toxic systems of forced competition, hierarchy, and survival challenges. Dr. Fulton Taylor proposes that instead of seeing one another as rivals who are only out for revenge and punishment, we see each other as byproducts of someone else's idea. If you have ever wanted to know the root cause of disagreements between women and girls, you will want to read this book. If you have ever thought that there has to be a reason for all of this negativity surrounding our relationships, then you need to read this book. And if you have ever thought that you were fighting a losing battle when it came to real relationships with other women or girls, then look no further. *The Lies We Were Told* has the answers you have been waiting for but never realized.

They Walked with God Gena Duncan, 2016-03-09. What does it mean to walk with God? Enoch knew. In fact, he knew so well that one day he walked right into God's eternal home without dying. Now that was a walk. A life walk involves all the activities that intersect with our lives every day. If we walked like Enoch or like righteous Noah, what would those intersections of appointments, meetings, meals, sport games, telephone conversations, text messages, meetings with friends, and discussions with family members look like? All those giants of faith listed in Hebrews 11 walked with God and are examples to us of walking in faith with God. Noah believed God would send a flood and built an ark even though he had never seen rain. Joshua and the Israelites, Deborah and Barak, Jephthah and Gideon, had faith for miraculous victories in battle. Rahab chose to leave her life of prostitution, married, and became part of the lineage of Christ. Samson asked for one last triumph of strength and fulfilled God's plan for his life. The author un.masks the lives of eight less-known giants of faith and reveals their triumphant acts of faith and the head-hanging weaker moments not mentioned in Hebrews 11. What can these unbelievable stories mean to us? Open these pages and see.

Come Now, Let Us Reason Together Mark D. Friedman, 2024-12-30 This volume seeks to correct a widespread fundamental misconception about Judaism Because the ultra Orthodox follow ancient Jewish traditions and strictly adhere to halakhah Jewish law it is commonly believed that the repressive rigidly hierarchical norms and social institutions that characterize their communities represent authentic Judaism This view is profoundly mistaken Judaism s true values are only ascertainable from its canonical books and in the discourse of the rabbis who reinvented Judaism after the destruction of the Second Temple in 70 CE substituting prayer and textual study for temple sacrifice The rabbis legal debates biblical interpretations and fanciful stories are recorded in the Talmud and other classic sources and show that these religious leaders firmly reject dogmatism and embrace controversy dissent pluralism moral autonomy tolerance and when

required by changing social conditions radical innovation The Hebrew Bible is itself rife with intertextual disputes regarding crucial theological questions that preclude pat answers regarding what Judaism says or means It seems that God has given us wide latitude to think for ourselves As argued in this study the Torah does not provide us with the ultimate truth but gives us the best and surest means of obtaining it *Convinced?* C.
