Intercultural Studies of Curriculum Carmel Rooft, Christopher Bezzina, 2017-10-05 This book explores the philosophical ideological and practical dimensions of curriculum using an intercultural lens It is cross cultural comparative and inclusive with each chapter featuring case studies from a minimum of three countries across different continents By using the same methods of data collection and analysis for each country level in each chapter the text explores relationships of curriculum theory policy and practice both within and between countries A diverse range of themes is explored including social justice and teacher preparation curriculum language education curriculum early childhood education and music curriculum as praxis curriculum and globalisation science curriculum teacher leadership in curriculum implementation as well as curriculum and history The exploration of these themes lays the foundation for open dialogue and innovative approaches in exploring curriculum issues within between and across cultures and contexts

The Infrastructure of Accountability Dorothea Anagnostopoulos, Stacey A. Rutledge, Rebecca Jacobsen, 2013-04-01 The Infrastructure of Accountability brings together leading and emerging scholars who set forth an ambitious conceptual framework for understanding the full impact of large scale performance based accountability systems on education Over the past 20 years schools and school systems have been utterly reshaped by the demands of test based accountability Interest in large scale performance data has reached an unprecedented high point Yet most education researchers focus primarily on questions of data quality and the effectiveness of data use In this bold and thought provoking volume the contributors look beneath the surface of all this activity to uncover the hidden infrastructure that supports the production flow and use of data in education and explore the impact of these large scale information systems on American schooling These systems the editors note sit at the juncture of technical networks work practices knowledge production and moral order

Tyranny of the Textbook Beverlee Jobrack, 2011-12-23 Educational reforms and standards have been a topic of public debate for decades with the latest go round being the State Common Core Curriculum Standards But time and again those reforms have failed and each set of standards no matter how new and different has had little impact on improving student achievement Why The textbooks Textbooks sell based on design and superficial features not because they are based on the latest research on how children learn and how well they promote student achievement In Tyranny of the Textbook Beverlee Jobrack retired from educational publishing sheds light on why this happens She gives an engaging and fascinating look behind the scenes of how K 12 textbooks are developed written adopted and sold And perhaps most importantly she clearly spells out how the system can change so that reforms and standards have a shot at finally being effective Did you know Reform efforts have focused on writing and rewriting standards and tests but these rarely have any effect on the core curriculum that is

published School districts and states don't use effectiveness as a criterion for evaluating and purchasing textbooks Publishers don't offer textbooks with better content or the latest teaching methods because teachers don't want textbooks that require them to change their practices Teachers report that they don't rely on a textbook in their class but research shows that they do Three companies publish 75 percent of the K-12 educational materials Those three companies are producing similar programs with the same instructional strategies none of which require teachers to change their practices significantly Publishers write textbooks for California and Texas All of the other markets have to make do with books only superficially adjusted for their states *The Monday Report* Florida.
