

With any other firearm, however, the New Model must be inspected frequently to assure that it is working properly.

The Ruger New Model revolver mechanism. (Illustrated below.) The same basic mechanism is found in the entire line of Ruger New Model single action revolvers — Single-Six, Blackhawk and Super Blackhawk.

Mechanism shown at rest. Transfer bar is not in line between hammer and firing pin. This is the carrying position.

Mechanism shown with trigger pulled and hammer beginning to fall. Transfer bar is in firing position, between hammer and firing pin.

CAUTION: NUMBERED CYLINDERS. Do not accept delivery of a Blackhawk Convertible (a model with two cylinders) unless the numbers on the front face of both cylinders match the last three digits of the serial number on the frame. A Blackhawk revolver (including the Super Blackhawk) manufactured before 1970 does not have the last three digits of the serial number

AMMUNITION

The table below shows the correct type of ammunition for use in each of the revolvers listed. Where two cartridges are shown on the same line, they may be used interchangeably.

Model	Caliber	Ammunition
Blackhawk	357 Magnum	357 Mag and 38 SPL
Blackhawk Convertible	357 Mag/9 mm	357 Mag and 38 SPL 9 mm in Extra Cyl.
Blackhawk	30 Carbine	30 Carbine
Blackhawk	41 Magnum	41 Magnum
Blackhawk	45 Colt	45 Colt
Blackhawk Convertible	45 Colt/45 Auto	45 Colt 45 Auto in Extra Cyl.
Super Blackhawk & Blackhawk	44 Magnum	44 Mag and 44 SPL

Notes on Cartridges listed in the table above: 357 Mag is 357 Magnum. 38 SPL is 38 Special. 9 mm is 9 mm Parabellum, also called 9 mm Luger. 45 Colt is also called 45 Long Colt. 45 Auto. is 45 Automatic and is also called 45 ACP. 44 Mag is 44 Magnum. 44 SPL is 44 Special.

WARNING: Because 9 mm cartridges are manufactured worldwide for use in pistols, revolvers, and submachine guns, it is possible to encounter cartridges which, when fired, develop pierced primers. If this occurs, discontinue the use of the particular brand or type of ammunition. The possibility of a pierced primer is another compelling reason why a shooter should always wear protective glasses to shield his eyes.

CAUTION: Use only metal jacketed bullets in 9 mm and 30 Carbine revolvers. When a lead bullet is fired, its base expands and a ring of lead is shaved off and deposited in the shoulder area of the chamber. A build-up of lead rings can prevent proper chambering of cartridges because 9 mm and 30 Carbine cartridge mouths seat on the chamber shoulders.

When firing a regular 30 Carbine cartridge with metal jacketed bullet, a ring of brass is sometimes clipped from the mouth of the cartridge case. This ring can lodge in the chamber shoulder and prevent full chambering of a subsequent cartridge. For the reasons noted above, revolver chambers should be cleaned regularly and chamber cleaning should be the first corrective action when cartridges do not chamber properly.

DANGER — AMMUNITION WARNING

Firearms may be damaged, and death or serious injury to the shooter or other persons may result from any condition which contributes to the generation of excessive pressure, or the uncontrolled release of gas, within a firearm. The foregoing adverse conditions can be caused by bore or chamber obstructions, propellant powder overloads, or by defective, incorrect, or improperly loaded and assembled cartridge components.

It is extremely dangerous to use a cartridge whose pressure is greater than that developed by cartridges loaded to industry standards. Even the strongest firearm can be blown up as a result of excessive pressure.

AMMUNITION (CARTRIDGES) NOTICE

WE SPECIFICALLY DISCLAIM RESPONSIBILITY FOR ANY DAMAGE OR INJURY WHATSOEVER OCCURRING IN CONNECTION WITH OR AS THE RESULT OF THE USE IN RUGER REVOLVERS OF FAULTY, OR NON-STANDARD, OR "REMANUFACTURED" OR HAND LOADED (RELOADED) AMMUNITION, OR OF CARTRIDGES OTHER THAN THOSE FOR WHICH THE FIREARM WAS ORIGINALLY CHAMBERED.

Super Blackhawk Manual

JS Bruner

Super Blackhawk Manual:

Super Blackhawk Manual Book Review: Unveiling the Power of Words

In some sort of driven by information and connectivity, the power of words has are more evident than ever. They have the capability to inspire, provoke, and ignite change.
