Commissions Shona Wilson Stark,2017-07-13 The Law Commission of England and Wales and the Scottish Law Commission were both established in 1965 to promote the reform of the laws of their respective jurisdictions Since then they have each produced hundreds of reports across many areas of law They are independent of government yet rely on governmental funding and governmental approval of their proposed projects They also rely on both government and Parliament and occasionally the courts or other bodies to implement their proposals This book examines the tension between independence and implementation and recommends how a balance can best be struck It proposes how the Commissions should choose their projects given that their duties outweigh their resources and how we should assess the success or otherwise of their output Countries around the world have created law reform bodies in the Commissions image They may wish to reflect on the GB Commissions responses to the changes and challenges they have faced to reappraise their own law reform machinery Equally the GB Commissions may seek inspiration from other commissions experiences The world the GB Commissions inhabit now is very different from when they were established They have evolved to remain relevant in the face of devolution the UK s changing relationship with the European Union increasing pressure for accountability and decreasing funding Further changes to secure the future of independent law reform are advanced in this book **U.S. Military Detention Operations**

in Post-Abu Ghraib Iraq Jeffrey Meriwether,2018-02-22 Detention operations are vital to U S military doctrine and crucial to the success of combat and recovery missions This book shows that the image of abuse from Abu Ghraib were but one small harmful element in an overwhelmingly successful detention mission in Iraq It focuses on the subsequent developments and successes explaining the standard rule of law approach taken by the U S military and examining the work in Iraq of such leaders as Major General John D Gardner and Major General Douglas M Stone Overall the text moves away from the Abu Ghraib scandal to illuminate a largely unknown successful development in the U S detention operations Following the Abu Ghraib scandal of 2003 2004 the U S Department of Defense scrambled to recover its reputation and that of its troops As the Bush Administration sought to redefine torture military judge advocates consistently challenged such moves arguing in favor of the Geneva Conventions humanitarian practices By 2006 Department of Defense policy stipulated full respect for and use of the Geneva Conventions This development was indeed a victory for American support for rule of law in Iraq as well as an affirmation of standard practices in the detention command Task Force 134 Pressures of war however continued to present their own challenges **The Report: Myanmar 2018** , Although recent GDP growth has moderated from the double digit highs of the early 2000s it has remained above 5% for more than 25 years supported by robust natural resource exports steady foreign direct investment FDI rising incomes and private consumption and rapid expansion of the industrial and services sectors External headwinds and internal conflict have dampened the near term outlook however the country s long

term economic outlook remains positive with rising investment in transport and power infrastructure expected to drive GDP and industrial growth supported by a sharp increase in personal incomes and consumer spending
