Profession Michael John McNamara, 2020-04-30 This book is about supervision in the legal profession with a focus on the experience of novice lawyers. It is the first of its kind. Until now, there have been a range of books dedicated to professional supervision in many disciplines, but not law. Supervision is an important link between formal university-based legal education and independent practice and is relevant to a range of contemporary legal practice issues, including changes driven by technology, workplace culture, regulating law firm management, and well-being. This book aims to be scholarly and practical. It provides an overview of how supervision is positioned in the legal regulatory framework; it describes how supervision is conceived in the legal profession and practice management literature and draws lessons from clinical legal education and other professional disciplines. By reporting on survey data, this book also provides insights into practitioners' attitudes and perceptions about supervision in legal practice. *Loose-Leaf for Supervision: Concepts & Skill-Building* Samuel

Instructional Leadership Toolbox Sandra Lee Gupton, 2010 I applaud Gupton's focus on the learner. This is the most important tenet for a school administrator's decision making. Each chapter describes a portion of school leadership that the successful principal needs to master. Sharon Madsen Redfern, Principal, Highland Park Elementary School, Lewistown, MT. Use these powerful leadership tools to build teamwork and improve instruction. Every school leader needs a toolbox of strategies for improving teaching and learning schoolwide. In this second edition of *The Instructional Leadership Toolbox*, Sandra Lee Gupton examines the role of principals in leading instruction and provides practical ways for leaders to reflect on and improve their practice. Emphasizing a democratic approach that involves stakeholders in instructional leadership, this resource offers a compendium of helpful skills and strategies drawn from current research and theory in school administration. The book provides updated standards from NAESP and ISLLC, new research that shows how a principal's actions can affect student achievement, questions for reflective practice, quotes and examples of instructional leadership strategies by practicing principals and veteran educators, and additional resources such as web sites, workbooks, books, and articles. This valuable guide provides a blueprint that demonstrates how school leaders can focus on student learning while using specific tools to empower others and build teams for a common goal: increased student achievement.
