[The End of Accounting and the Path Forward for Investors and Managers](#) Baruch Lev,Feng Gu,2016-06-02 An innovative new valuation framework with truly useful economic indicators The End of Accounting and the Path Forward for Investors and Managers shows how the ubiquitous financial reports have become useless in capital market decisions and lays out an actionable alternative Based on a comprehensive large sample empirical analysis this book reports financial documents continuous deterioration in relevance to investors decisions An enlightening discussion details the reasons why accounting is losing relevance in today s market backed by numerous examples with real world impact Beyond simply identifying the problem this report offers a solution the Value Creation Report and demonstrates its utility in key industries New indicators focus on strategy and execution to identify and evaluate a company s true value creating resources for a more up to date approach to critical investment decision making While entire industries have come to rely on financial reports for vital information these documents are flawed and insufficient when it comes to the way investors and lenders work in the current economic climate This book

demonstrates an alternative giving you a new framework for more informed decision making Discover a new comprehensive system of economic indicators Focus on strategic value creating resources in company valuation Learn how traditional financial documents are quickly losing their utility Find a path forward with actionable up to date information Major corporate decisions such as restructuring and M A are predicated on financial indicators of profitability and asset liabilities values These documents move mountains so what happens if they re based on faulty indicators that fail to show the true value of the company The End of Accounting and the Path Forward for Investors and Managers shows you the reality and offers a new blueprint for more accurate valuation
