developed and implemented Torrey draws on his own first hand account of the creation and launch of the program extensive research one on one interviews with people involved and recently unearthed audiotapes of interviews with major figures involved in the legislation As such this book provides historical material previously unavailable to the public Torrey examines the Kennedys involvement in the policy the role of major players the responsibility of the state versus the federal government in caring for the mentally ill the political maneuverings required to pass the legislation and how closing institutions resulted not in better care as was the aim but in underfunded programs neglect and higher rates of community violence Many now wonder why public mental illness services are so ineffective At least one third of the homeless are seriously mentally ill jails and prisons are grossly overcrowded largely because the seriously mentally ill constitute 20 percent of prisoners and public facilities are overrun by untreated individuals As Torrey argues it is imperative to understand how we got here in order to move forward towards providing better care for the most vulnerable
