A TEXTBOOK OF URBAN PLANNING AND GEOGRAPHY SHARMA, SAMEER, 2020-11-01 Generally textbooks on urban geography and urban planning are based on ideas laid out in the west and are unable to explicitly connect those ideas to the way Indians experience their cities This gap is addressed in this book by reconceptualising Indian urban studies The reconceptualisation is done by dissecting western theories concepts paradigms and principles and practices and placing them alongside how Indians experience their urban landscapes Such a comparative analysis allows readers to break from their past understandings of the structure and dynamics of Indian cities as well as enable researchers to make exploratory hypotheses The book will empower students to craft and implement new approaches unconstrained by orthodox theories and biases Primarily intended for the students of Geography and Urban Planning the book covers the evolution of urban structures and dynamics of settlements in India largely after India s Independence There are seven chapters in the book First three chapters describe and explain the evolution of Indian settlements up to the present The next four chapters focus on regions urban planning urban governance and the social landscape of Indian cities Each chapter ends with a set of short and long answer questions KEY FEATURES Large coverage of the syllabi prescribed in Indian academic institutions Strategically organised text of each chapter for the ease of learning Abundant case studies in each chapter Chapter end short answer long answer and fill in the blank type exercise problems Target Audience B Arch BA B Sc Geography MA M Sc Geography *Brief Review in United States History and Government* Margaret Coel, 2006

Asian/American Curricular Epistemicide Nicholas D. Hartlep, Daniel P. Scott, 2016-08-18 In this important book Nicholas Hartlep and Daniel Scott s detailed analyses on both visual and historical representations of Asian Americans in textbooks and teacher manuals used in our elementary and secondary schools poignantly tell us that generations of children are growing up being fed this single story about Asian Americans As Hartlep and Scott write Asian Americans have once again been constructed as the good minority that can succeed on their own and be used as a political instrument to shame the Blacks for their underachievement and their fight for equality Over and over again the media has been telling a single story about Asian Americans to the public for the past fifty years The consequence of this fabricated story is that it discourages others even Asian Americans themselves from believing in the validity of their struggles Linshi 2014 p 1
