Freedom,Leland N. Benson,Jeffrey F. Smallhorn,2012-12-06 As pediatric cardiology becomes more and more neonatal cardiology and even fetal cardiology Neonatal Heart Disease by Robert M Freedom MD Leland N Benson MD and Jeffrey F Smallhorn MB is extraordinarily timely Neonatal Heart Disease consists of 50 chapters by 25 distinguished contributors and is a worthy successor to The Neonate With Congenital Heart Disease by Richard D Rowe MD and his colleagues 1968 and 1981 The first dition of this book in 1968

established Richard D Rowe MD as the father of neonatal cardiology As most pediatric cardiologists now know Dick Rowe died on January 18 1988 after a brief illness It will therefore come as no surprise that the present volume is dedicated to this great and gentle man Nor will it come as a surprise that I have been asked to devote this Foreword to Richard D Rowe MD pioneering neonatal cardiologist and incomparable personal friend What can one say about Dick Rowe Well there are at least two very different tales There is Dick Rowe the public man the factual account of Dick Rowe s achievements as a physician educator and research man the Dick Rowe that virtually everyone knows And then there is Dick Rowe the private man the extraordinary human being who only his personal friends were privileged to know I shall try to tell something of both stories First the public man the factual account is really quite amazing Nadas' Pediatric Cardiology - E-Book Edward P. Walsh, John E. Mayer, Sarah A. Teele, David W. Brown, 2023-12-05 In recent years the field of pediatric cardiology has undergone rapid change resulting in earlier diagnoses and improved long term outcomes for many patients Nadas Pediatric Cardiology 3rd Edition offers an easy to understand practical and team based approach to this complex field addressing the current needs of pediatric cardiologists surgeons fellows and other members of the pediatric cardiology team It thoroughly covers all diagnostic and management aspects of both acquired and congenital heart disease providing a strong foundation and an actionable approach to care of the pediatric cardiology patient and family Provides comprehensive coverage of the foundational and practical aspects of care for complex heart problems in children covering both therapy and surgery from basic information through complex team based clinical applications Includes new chapters on cardiomyopathies structural heart disease interventional procedures genetics electrophysiology and imaging Discusses the latest information on diagnosis and treatment of congenital heart disease including in the fetus and young adult Covers current drugs used in pediatric heart conditions and surgical therapy Shares the knowledge and expertise of editors and authors at Boston Children s Hospital one of the world s largest and most highly rated pediatric cardiology and congenital heart surgery institutions using a team based approach Covers the full spectrum of care including anesthesia the ICU and nursing considerations **Language and Institutional Identity in the Post-Apartheid South African Higher Education** Leketi Makalela, 2022-03-21 This book examines the intersections between education identity formation and language in post apartheid South Africa with specific attention to higher education It does so against the backdrop of the core argument that the sector plays a critical role in shaping re producing and perpetuating sectoral class sub national and national identities which in turn in the peculiar South African setting are almost invariably analogous with the historical fault lines determined and dictated by language as a marker of ethnic and racial identity The chapters in the book grapple with the nuances related to these intersections in the understanding that higher education language policies overt and or covert largely structure institutional cultures or what has been described as curriculum in higher education institutions Together the chapters examine the roles played by higher education by language policies and by the intersections of these policies and ethnolinguistic identities in either constructing

and perpetuating or deconstructing ethnolinguistic identities upon which the sector was founded The introductory chapter lays out the background to the entire book with an emphasis on the policy and practice perspectives on the intersections The middle chapters describe the so called White Universities Black Universities and Middle Man Minorities Universities The final chapter maps out future directions of the discourses on language and identity formation in South Africa s higher education

Harnessing Indigenous Epistemologies for Sustainable Progress Ngulube, Patrick,2025-02-19 Seeking cognitive fairness in academic institutions requires an emphasis on indigenous knowledge and epistemic freedom that is more pluralistic and inclusive which is supported by the incorporation of Indigenous viewpoints and wisdom A more just and equitable learning environment that benefits all academics and students can be achieved by elevating epistemic freedom in the academy and making it a place where cognitive diversity is acknowledged Indigenous knowledge systems provide distinctive perspectives on sustainable living community health and environmental stewardship To ensure that Indigenous history continues to be a vibrant and living legacy that inspires and enriches the globe it is important to promote it in a way that both honors the past and influences modern practices Harnessing Indigenous Epistemologies for Sustainable Progress challenges the dominance of Western epistemologies by incorporating Indigenous viewpoints and wisdom into academia fostering a more pluralistic and inclusive approach to knowledge development and transmission Covering topics including digital preservation global higher education and ecological kinships this book is an excellent resource for policymakers educators sociologists scholars researchers academicians professionals and more Corrupted Jonathan D Jansen,2023-02-01 In South African higher education the images of dysfunction are everywhere Student protests Violence Police presence Rubber or real bullets Class disruptions Burning tyres Damaged buildings Injury and sometimes death Reports of wholesale corruption Year after year often in the same set of universities the problem of routine instability seems insoluble The financial academic and reputational costs of ongoing dysfunction are high especially for those universities

caught up in the never ending struggle to overcome apartheid legacies Any number of explanations have been ventured including a lack of resources shortage of capacity rural location corrupt officials and endemic conflict Corrupted takes a deeper look at dysfunction in an attempt to unravel the root causes in a sample of South African universities At the heart of the problem lies the vexed issue of resources or more pertinently the relationship between resources and power who gets what and why Whatever else it aspires to be commonly a place of teaching learning research and public duty a university in an impoverished community is also a rich concentration of resources around which corrupt staff students and those outside of campus all vie for access Taking a political economic approach Jonathan Jansen describes the daily struggle for institutional resources and offers accessible sensible insights He argues that the problem won t be solved through investments in capacity building alone because the combination of institutional capacity and institutional integrity contributes to serial instability in universities Rather durable solutions would include the depoliticisation of university councils and appointments of academics with integrity and capacity to manage and lead these fragile institutions This groundbreaking and long overdue study will offer a promising way forward for universities to better serve their communities and the country more broadly *Elucidations of the Student's Greek Grammar* Georg Curtius,1870 Universities, Employability and Human Development Melanie Walker,Samuel Fongwa,2017-01-20 The book makes a significant contribution to critical higher education studies specifically to graduate employability research and to capabilities and education research The book moves beyond the simplistic conception of alleged gaps in graduate skills and mismatches between employers and universities and instead provides an innovative multi dimensional and intersectional human capabilities conceptualisation of graduate employability The book challenges an individualised notion of employability instead locating employability issues in social and economic conditions and argues that employability choices cannot be divorced from inequality Qualitative and quantitative data from multiple case study universities in South Africa are used to explore the perceptions and experiences of diverse students lecturers support officers and employers regarding what each university is doing or should be doing to enhance graduate economic opportunities and contribute to inclusive development The book will be highly relevant to students scholars and researchers in the fields of education and sociology particularly those with an interest in graduate employability
