Applying Critical Mathematics Education, 2021-07-05 There is no shortage of urgent complex problems that mathematics education can and should engage with Pandemics forest fires pollution Black Lives Matter protests and fake news all involve mathematics are matters of life and death have a clear political dimension and are interdisciplinary in nature They demand a critical approach The authors in this volume showcase new insights teaching ideas and new and unique ways of applying critical mathematics education in areas as diverse as climate change obesity decolonisation and ethnomathematics This book demonstrates that there is plenty to be done with critical mathematics education Contributors are Annica Andersson Tonya Gau Bartell Richard Barwell Lisa Lunney Borden Sunghwan Byun Anna Chronaki Brian Greer Jennifer Hall Victoria Hand Kjellrun Hiis Hauge Beth Herbel Eisenmann Rune Herheim Courtney Koestler Kate le Roux Swapna Mukhopadhyay Aldo Parra Anita Rampal Sheena Rughubar Reddy Toril Eskeland Rangnes Ulrika Ryan Lisa Steffensen Paola Valero and David Wagner

Open and Distance Education in Asia, Africa and the Middle East Olaf Zawacki-Richter, Adnan Qayyum, 2019-02-18 This book is open access under a CC BY 4.0 license This book describes the history structure and institutions of open and distance education in six countries China India Russia Turkey South Africa and South Korea It describes how open and distance education is evolving in a digital age to reflect the needs and circumstances of the national higher education systems in these countries It also explores the similarities and differences between how their open and distance higher education systems are managed and structured This book is the second in a series following *Open and Distance Education in Australia Europe and the Americas* Springer 2018 Both books compare and draw conclusions about the nature of open and distance education in the context of various national higher education systems In a digital era characterized by the growing use of online open and distance education this book will prove particularly valuable for policy makers and senior administrators who want to learn about establishing or expanding open and distance education services In addition it offers a valuable reference guide for researchers academics and students interested in understanding the different approaches to open and distance education

Handbook of Research on Engineering Innovations and Technology Management in Organizations Gaur, Loveleen, Solanki, Arun, Jain, Vishal, Khazanchi, Deepak, 2020-04-17 As technology weaves itself more tightly into everyday life socio economic development has become intricately tied to these ever evolving innovations Technology management is now an integral element of sound business practices and this revolution has opened up many opportunities for global communication However such swift change warrants greater research that can foresee and possibly prevent future complications within and between organizations The Handbook of Research on Engineering Innovations and Technology Management in Organizations is a

collection of innovative research that explores global concerns in the applications of technology to business and the explosive growth that resulted Highlighting a wide range of topics such as cyber security legal practice and artificial intelligence this book is ideally designed for engineers manufacturers technology managers technology developers IT specialists productivity consultants executives lawyers programmers managers policymakers academicians researchers and students

Knowledge for Justice Tor Halvorsen,Hilde Ibsen,2017-11-28 With the adoption of the United Nations Sustainable Development Goals SDGs and the Paris Agreement the purpose of development is being redefined in both social and environmental terms Despite pushback from conservative forces change is accelerating in many sectors To drive this transformation in ways that bring about social environmental and economic justice at a local national regional and global levels new knowledge and strong cross regional networks capable of foregrounding different realities needs and agendas will be essential In fact the power of knowledge matters today in ways that humanity has probably never experienced before placing an emphasis on the roles of research academics and universities In this collection an international diverse collection of scholars from the southern African and Nordic regions critically review the SDGs in relation to their own areas of expertise while placing the process of knowledge production in the spotlight In Part I the contributors provide a sober assessment of the obstacles that neo liberal hegemony presents to substantive transformation In Part Two lessons learned from NorthSouth research collaborations and academic exchanges are assessed in terms of their potential to offer real alternatives In Part III a set of case studies supply clear and nuanced analyses of the scale of the challenges faced in ensuring that no one is left behind This accessible and absorbing collection will be of interest to anyone interested in NorthSouth research networks and in the contemporary debates on the role of knowledge production The Southern AfricanNordic Centre SANORD is a network of higher education institutions that stretches across Denmark Finland Iceland Norway Sweden Botswana Namibia Malawi South Africa Zambia and Zimbabwe Universities in the southern African and Nordic regions that are not yet members are encouraged to join

Prisoners of the Past Steven Friedman, 2021-06-01 Building on the work of economic historian Douglass North and Ugandan political scholar Mahmood Mamdani Friedman argues that the difficulties besetting South African democracy are legacies of the past not products of the post 1994 era South Africa's democracy is often seen as a story of bright beginnings gone astray a pattern said to be common to Africa The negotiated settlement of 1994 it is claimed ended racial domination and created the foundation for a prosperous democracy but greedy politicians betrayed the promise of a new society In Prisoners of the Past Steven Friedman astutely argues that this misreads the nature of contemporary South Africa Building on the work of the economic historian Douglass North and the political thinker Mahmood Mamdani Friedman shows that South African democracy's difficulties are legacies of the pre 1994 past The settlement which ushered in majority rule left intact core features of the apartheid economy and society The economy continues to exclude millions from its benefits while racial hierarchies have proved stubborn apartheid is discredited but the values of the pre 1948 colonial era the period of British colonization still dominate Thus South Africa's democracy supports free elections civil liberties and the rule of law but also continues past patterns of exclusion and domination Friedman reasons that this path dependence is not as is often claimed the result of constitutional compromises in 1994 that left domination untouched This bargain was flawed because it brought not too much compromise but too little Compromises extended political citizenship to all but there were no similar bargains on economic and cultural change Using the work of the radical sociologist Harold Wolpe Friedman shows that only negotiations on a new economy and society can free South Africans from the prison of the past

ICCWS 2016 11th International Conference on Cyber Warfare and Security Dr Tanya Zlateva and Professor Virginia Greiman, 2016 The 11th International Conference on Cyber Warfare and Security ICCWS 2016 is being held at Boston University Boston USA on the 17-18th March 2016 The Conference Chair is Dr Tanya Zlateva and the Programme Chair is Professor Virginia Greiman both from Boston University ICCWS is a recognised Cyber Security event on the International research conferences calendar and provides a valuable platform for individuals to present their research findings display their work in progress and discuss conceptual and empirical advances in the area of Cyber Warfare and Cyber Security It provides an important opportunity for researchers and managers to come together with peers to share their experiences of using the varied and expanding range of Cyberwar and Cyber Security research available to them The keynote speakers for the conference are Daryl Haegley from the Department of Defense DoD who will address the topic Control Systems Networks What's in Your Building and Neal Ziring from the National Security Agency who will be providing some insight to the issue of Is Security Achievable A Practical Perspective ICCWS received 125 abstract submissions this year After the double blind peer review

ECSM2016-Proceedings of the 3rd European Conference on Social Media

Christine Bernadas,Delphine Minchella,2016-06-21

Private Sector Development in an Emerging World

Diederik Boer,Harald Sander,Katharina Friz,Antonella Anastasi,2023-12-04 This book explores the interactions between private sector development public policies and societal institutions with a strong view on contributing to sustainable and inclusive development in emerging countries The private sector is often praised as an engine of economic growth This belief has led to significant efforts to promote private sector development in emerging countries Development agencies prioritize private sector development and national governments are following suit resulting in often huge incentives to stimulate and attract private investment However private sector development is not a panacea for sustainable and inclusive development as the past decades have clearly shown Economic growth societal development and environmental sustainability are often in a sharp conflict and more often than not economic growth has failed to improve the lives of all citizens This book examines the role the state and the private sector should play to benefit from the dynamics of business development while ensuring that these benefits are shared broadly without jeopardizing sustainability The views presented differ in detail but the analyses and case studies presented share common themes namely that the relative roles of state and private sector of should be balanced and that this particular balance should be based on the context of each country in order to make the private public sector interaction work for all people

Science Education in Countries Along the Belt & Road

Ronghuai Huang,Bing Xin,Ahmed Tlili,Feng Yang,Xiangling Zhang,Lixin Zhu,Mohamed Jemni,2022-01-18 This book aims to highlight science education in countries along the Belt and Road It consists of 30 chapters divided into three main parts namely Arab and African countries

OECD Skills Studies

OECD Skills Strategy Diagnostic Report: Peru 2016 OECD,2016-11-25 Skills are central to Peru s future prosperity and the well being of its people Peru s economic development to date has largely been driven by abundant natural resources and high commodity prices in the global market The goal for the future is to ensure productive diversification expand

Global

Perspectives on Graduate and Doctoral Education Stan Taylor,Karri Holley,Margaret Kiley,2025-02-12 This book provides a framework for analysis and reviews the changing landscape of doctoral education across fourteen global case studies before providing conclusions and recommendations for further research and development Traditionally doctoral education was a matter of the talented few being apprenticed to learn how to research from masters in their discipline The work was conducted in private in spaces far removed from normal teaching or industry activities The only requirement for academic staff to supervise or to examine candidates was to be research active Many candidates dropped out during their studies For those who persisted their doctoral research could take years to complete and most graduates went on to academic careers But in recent decades several changes have transformed doctoral education almost beyond recognition The chapters in this book present an analysis of graduate and doctoral education globally aligned with current developments and

research provide an overall framework for the discussion at the international level of changes in doctoral education examine how changes have been manifested in a sample of case studies of major doctoral providers from across the globe and offer conclusions about the changing graduate and doctoral landscape with suggestions for future research This volume will be of interest to all those engaged in doctoral education including doctoral candidates their supervisors and deans and administrators of graduate research It was originally published as a special issue of *Innovations in Education and Teaching International*

Universities, Employability and Human Development Melanie Walker, Samuel Fongwa, 2017-01-20 The book makes a significant contribution to critical higher education studies specifically to graduate employability research and to capabilities and education research The book moves beyond the simplistic conception of alleged gaps in graduate skills and mismatches between employers and universities and instead provides an innovative multi dimensional and intersectional human capabilities conceptualisation of graduate employability The book challenges an individualised notion of employability instead locating employability issues in social and economic conditions and argues that employability choices cannot be divorced from inequality Qualitative and quantitative data from multiple case study universities in South Africa are used to explore the perceptions and experiences of diverse students lecturers support officers and employers regarding what each university is doing or should be doing to enhance graduate economic opportunities and contribute to inclusive development The book will be highly relevant to students scholars and researchers in the fields of education and sociology particularly those with an interest in graduate employability

Rethinking Higher Education in Post-Apartheid South Africa Emnet Tadesse Woldegiorgis, Logan Govender, Dennis Zami Atibuni, 2025-07-25 This book explores the opportunities and epistemological and structural challenges facing higher education in postcolonial South Africa and argues for a fundamental transformation to meet the needs of the 21st century Taking the concept of transformation as a unifying thread this book discusses the evolving trajectories of higher education in South Africa with particular emphasis on the decolonial initiatives that have emerged in the post Apartheid era During this time there have been persistent calls for South Africa to move beyond Eurocentric education programmes and curricula in favour of a system that reflects the continent's culture and identities of all South Africans The book argues that incremental reforms of existing structures are insufficient and that instead a deeper more fundamental shift in higher education structures values and systems is needed Overall the book calls for a comprehensive transformation to expand access for historically disadvantaged communities enhance quality and competitiveness address past injustices and improve the quality and capacity to act together for a more sustainable and just future Also exploring the digital transformations which have accelerated in the wake of the COVID 19 pandemic this book will be an essential read for researchers and policymakers working on higher education in South Africa

BRICS Innovative Competitiveness Report 2017 Xinli Zhao, Minrong Li, Maoxing Huang, Alexander Sokolov, 2018-08-16 The Report predicts that the coming five years will witness the five countries keep improving in national innovative competitiveness with China and

Russia maintaining their strong growth momentum India growing at a moderate rate and Brazil and South Africa gradually picking up speed and climbing out of the trough It estimates that the five countries national innovative competitiveness will be keeping steady growth by 2030 The General Reports part presents a comprehensive analysis of the current status and achievements of STI cooperation between China and other BRICS countries and proposes priority areas of BRICS STI cooperation to provide valuable decision inputs for the BRICS countries to accelerate the improvement of their national innovative competitiveness The Country Reports part respectively analyzes and makes predictions on the national innovative competitiveness of the BRICS countries based on a survey of their STI development and STI cooperation within the BRICS framework The Thematic Reports part focuses on four thematic areas closely related to STI i e digital economy financial inclusion energy and agriculture and offers detailed analysis of the STI development and potential of the countries in relevant areas providing additional inputs for a further understanding of the national innovative competitiveness of the BRICS countries
