Once and Future Antiquities in Science Fiction and Fantasy Brett M. Rogers, Benjamin Eldon Stevens, 2018-12-27 In 15 all-new essays, this volume explores how science fiction and fantasy draw on materials from ancient Greece and Rome, displacing them from their original settings in time and space in points of origins and genre, and encouraging readers to consider similar displacements in the modern world. Modern examples from a wide range of media and genres, including Philip Pullman's *His Dark Materials* and the novels of Helen Oyeyemi, the *Rocky Horror Picture Show*, and Hayao Miyazaki's *Spirited Away*, and the role-playing games *Dungeons and Dragons* and *Warhammer 40K* are brought alongside episodes from ancient myth, important moments from history, and more. All together, these multifaceted studies add to our understanding of how science

fiction and fantasy form important areas of classical reception not only transmitting but also transmuting images of antiquity The volume concludes with an inspiring personal reflection from the New York Times bestselling author of speculative fiction Catherynne M Valente offering her perspective on the limitless potential of the classical world to resonate with experience today

The New Henry Giroux Reader Henry A. Giroux, 2018-11-30 The New Henry Giroux Reader presents Henry Giroux s evolving body of work The book articulates a crucial shift in his analyses after the September 11th 2001 terrorist attack when his writing took on more expansive articulations of power politics and pedagogy that addressed education and culture in forms that could no longer be contained via isolated reviews of media schooling or pedagogical practice Instead Giroux locates these discourses as a constellation of neoliberal influences on cultural practices with education as the engine of their reproduction and their cessation The New Henry Giroux Reader also takes up Giroux s proclivity for using metaphors articulating death as the inevitable effect of neoliberalism and its invasion of cultural policy Zombies entropy and violence permeate his work coalescing around the central notion that market ideologies are anathema to human life His early pieces signal an unnatural state of affairs seeping through the fabric of social life and his work in cultural studies and public pedagogy signals the escalation of this unease across educative spaces The next sections take up the fallout of 9 11 as an eruption of these horrific practices into all facets of human life within traditional understandings of education and culture s broader pedagogical imperatives The book concludes with Giroux s writings on education s vitalist capacity demonstrating an unerring capacity for hope in the face of abject horror Perfect for courses such as History and Philosophy of Education Political and Social Foundations of Education Policy Issues in American Education African American Education Social Justice Research in Education Marginality and the Politics of Resistance Equity and Anti Oppression Cultural Studies and Public Pedagogy

The Right to Food Guidelines, Democracy and Citizen Participation

Katharine S. E. Cresswell Riol, 2016-11-10 It is now more than a decade since the Right to Food Guidelines were negotiated, agreed and adopted internationally by states. This book provides a review of its objectives and the extent of success of its implementation. The focus is on the first key guideline: Democracy, good governance, human rights and the rule of law, with an emphasis on civil society participation in global food governance. The five BRICS countries—Brazil, Russia, India, China, and South Africa—are presented as case studies representing major emerging economies that blur the line between the Global North and South and exhibit different levels of human rights realisation. The book first provides an overview of the right to adequate food, accountability and democracy, and an introduction to the history of the development of the right to adequate food and the Right to Food Guidelines. It presents a historical synopsis of each of the BRICS states' experiences with the right to adequate food and an analysis of their related periodic reporting to the Committee on Economic, Social and Cultural Rights, as well as a specific assessment of their progress in regard to the first guideline. The discussion then focuses on the effectiveness of the Right to Food Guidelines as both a policy-making and monitoring tool based on the analysis of the guidelines and the BRICS states.

Local Government Finance Dirk Brand, 2016-05-22 Local Government Finance does not follow the conventional operational approach to local government finance, which typically focuses on issues such as revenue collection, budgeting, performance auditing and accounting, and debt administration. Instead, it offers a broader systemic and multi-level perspective by assessing the governance model of local government finance. For this purpose, the authors compare and contrast the South African model with the international experience. The publication thus makes a significant contribution to analysts and scholars in their sense-making and knowledge production endeavours in this field.
