Idrus and Dr Nurkhamimi Zainuddin,2016 *Emerging Technologies for Education* Tien-Chi Huang,Rynson Lau,Yueh-Min Huang,Marc Spaniol,Chun-Hung Yuen,2017-12-15 This book constitutes the thoroughly refereed post workshop proceedings of the Second International Symposium SETE 2017 held in conjunction with ICWL 2017 Cape Town South Africa in September 2017 The 52 full and 13 short papers were carefully reviewed and selected from 123 submissions This symposium attempts to provide opportunities for the crossfertilization of knowledge and ideas from researchers in diverse fields that make up this interdisciplinary research area *Proceedings of The Focus Conference (TFC 2022)* Manyane Makua,Mariam Akinlolu,Mashango Sithole,Phiwayinkosi Gumede,Cebo Nyondo,2023-02-08 This is an open access book It is a common cause globally that the abrupt emergence of Covid 19 wreaked havoc in all sectors including the higher education system The sudden closure of campuses as a social distancing measure to prevent community transmission has shifted face to face classes to online teaching and learning a transformative experiment for academics and students in most institutions This has thrown the focus on utilising Learning Management Systems LMS eLearning tools and platforms for effective student engagement which may have limitations of accessibility and affordability for many students The pandemic has exposed the shortcomings of the current higher education system and the need for more training of academics and practitioners in digital technology to adapt to the rapidly changing educational climate In the post pandemic situation eLearning and virtual education may become an integral part of the higher education system hence the question of re inventing higher education The higher education institutions and universities need to plan the post pandemic education and research strategies to ensure student learning outcomes and standards of educational quality With the move to online teaching and learning subsequently traditional assessments followed and were adapted and adopted for online assessment Assessments lie at the heart of the teaching process It shapes students understanding of the

curriculum and determines their ability to progress. Reflections on assessments during Covid 19 abounded with the challenges that both academics and students faced regarding online assessments including cheating and quality assurance issues. The focus on quality extended to the quality of teaching and learning in general. Moreover, the pandemic brought about the question of staff and student health and psychosocial support also became important. For academics, the abrupt shift to adapt to working from home and implementing online learning has led to overwork, low work-life balance and compromised mental health. With a view on constructive and futuristic discourse, the sub-themes of the 2022 Focus conference encapsulate the current realities in the higher education sector and beyond. It further provides opportunities for an in-depth analysis based on the benefit of hindsight and foresight. The Organising Committee specifically coined the theme 'Re-inventing higher education: Insights, trends and lessons learnt from specifically for the conference to reflect on and address the matters mentioned earlier. Academics, scholars and practitioners in the higher education sector are called upon to share their research and express their perspectives on the reinvention of higher education. The Sword and the Pen Allister Sparks, 2016-02-29. Allister Sparks joined his first newspaper at age 17 and was pitched headlong into the vortex of South Africa's stormy politics. His autobiography, *The Sword and the Pen*, six decades on the political frontier, is the story of how, as a journalist, he watched and chronicled and participated in his country's unfolding drama for over half a century, covering events from the premiership of DF Malan to the presidency of Jacob Zuma and witnessing at close range the rise and fall of apartheid and the rise and crisis of the new South Africa. In trenchant prose, Sparks has written a remarkable account of both a life lived to its fullest capacity as well as the surrounding narrative of South Africa from the birth of apartheid, the rise of political opposition, the dawn of democracy right through to the crisis being experienced today. Anyone who tries to understand what is happening in South Africa today without first digesting Allister Sparks' lucid, sensitive and comprehensive exploration of the country's multi-faceted mind does so at his own peril. Andr Brink on *The Mind of South Africa*. His special strength is a writing talent which combines precise reportage with shrewd analysis and unusual stamina. *The Observer on Tomorrow is Another Country*. **Fort Hare 1915-48: the Evolution of an African College** Alexander Kerr, 1968.
