University Of Limpopo Teachers Intake For 2016:

Assessing Academic Literacy in a Multilingual Society Albert Weideman, John Read, Theo du Plessis, 2020-11-02
South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy. The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a minority of the national population are native speakers of these languages. Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools. The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully. The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience. *The 4IR and the Humanities in South Africa* Bhaso Ndzendze, Asheel Singh, Suzall Timm, 2024-05-28
The world is at a crossroads because of industrial change compounded by a global pandemic. Humanities and social science education is grappling with the meaning of this change to the effect that there have been some anxieties and misguided perceptions about the irrelevance of the humanities in this emerging new world. With the emergence of new technologies, this book highlights the indispensable centrality of humanity and the humanities going forward. The book will provide a reference point for new and innovative approaches to the humanities in the 4IR in South Africa and Africa. Its diverse content means that it will be useful across the humanities and social science spectrum. **Annual Report ...** South Africa.
