From #RhodesMustFall Movements to #HumansMustFall Movements, Artwell Nhemachena, Jairo Kangira, 2021-05-14. Might it be possible that the world is being migrated into an era where the imperial periphery will be increasingly governed through Artificial Intelligence? AI and robotics designed to replace human beings. Celebrated as efficient, strong, unfailing, tireless, precise and beyond corruption, AI and robots are set to replace African leaders who are imperially deemed to be and consistently condemned as corrupt, failed, weak and inefficient. But if these AI and robots are neo imperial tools and machinations, the million dollar question is whether empire is not returning to recolonise the supposedly inefficient Africans via the new technologies and machinism. Where Africans once celebrated their liberation war movements, empire has enplaced what it calls liberation technologies designed to supposedly liberate African youths from their own states and governments led by liberation movements. Where Africans once celebrated their liberation war movements, empire has placed its own NGOs, CSOs, spewing

liberal ideologies designed to ostensibly liberate African youths from their own supposedly failed and corrupt states and government leaders With African youths citizens allying not with their liberation movements but with the liberation technologies and liberal NGOs CSOs it is not surprising why African citizens oppose their states led Fast Track Land Redistribution Programmes while ironically they happily celebrate Fast Tracked COVID 19 Vaccines Positioning the notion of Humans Must Fall movements this book underscores ways in which empire is in a process of eternal return to 21st century Africa The book is crucial for scholars and activists in political science government studies sociology anthropology cultural studies history languages and communication studies security studies military studies and development studies

Hidden Pretoria Johan Swart, 2019-10-01 Despite being South Africa's capital city Pretoria has often played a supporting role to bold and brash Johannesburg and Cape Town's cosmopolitan charms However when it comes to architectural heritage the Jacaranda City is well endowed From the skyline dominating Union Buildings and Voortrekker Monument to the imposing edifices of its administrative precincts Pretoria might be deserving of a second moniker the city of sandstone brick and granite But when you look beyond the impressive facades soaring columns and linear planes of buildings that were intended to convey power and authority you'll find light filled interiors embellished with decorative touches that are only hinted at from the outside Murals mosaics domes galleries stained glass windows gleaming brass and impressive woodwork are often hidden from view behind doors that are closed to the public And even those museums buildings and places of worship that are open to all have noteworthy architectural and design features that are easily overlooked The history of the city and of the country has been played out in many of the buildings featured in Hidden Pretoria This book captures facets of our diverse heritage historic and contemporary so that a new generation might recognise the need to embrace the past in order to build our common future

Insights into Policies and Practices on the Right to Development Carol Chi Ngang, Serges Djoyou Kamga, 2020-10-06 As the world continues to grapple with a range of practical development challenges that are directly linked to livelihood concerns about human well being and declining living standards often overlooked is the human right to development which remains largely unfulfilled In the face of successive global initiatives seeking to remedy these challenges it has become urgent to ask what the universal recognition of the right to development implies if it cannot be translated into improved well being for impoverished peoples around the world The contributors in this timely volume argue that setbacks to development are deeply rooted in the failure to implement the right to development which by nature guarantees equality of opportunities and equitable redistribution of the resources that contribute to better living standards Assessing policy and practical measures or the lack thereof they offer practical suggestions for implementation that will make the right to development a reality for everyone

together Pentecostals read the Bible with the expectation that the Spirit who inspired the authors will again inspire them to hear it as God's word. They emphasize the experiential at times at the cost of proper doctrine and practice. This book sketches an African hermeneutic that provides guidance to a diverse movement with many faces and serves as corrective for doctrine and practice in the face of some excesses and abuses especially in some parts of the neo-Pentecostal movement. African Pentecostalism's contribution to the hermeneutical debate is described before three points are discussed that define it: the centrality of the Holy Spirit in reading the Bible, the eschatological lens that Pentecostals use when they read the Bible, and the faith community as normative for the interpretation of the Bible.
