University Of Sol Plaatje:

Sol Plaatje's Mhudi Sabata-mpho Mokae, Brian Willan, 2021 *Sol Plaatje's Mhudi* is the first full length novel in English to have been written by a black South African and is widely regarded as one of South Africa's most important literary works. Set in the 1830s it tells the tale of Mhudi and Ra Thaga a romantic story set against a violent backdrop of war between Barolong and Matebele complicated by the intrusions of Boer trekkers with whom the Barolong form an alliance. It is notable among other things for the way Plaatje uses the past to explore the roots of the oppression and injustice suffered by his people a century later when the book was written. Sol Plaatje University Brian Willan, 2020 *Sol Plaatje University* began in 2013 one of only two universities set up in South Africa since 1994. Since then it has made impressive progress a new campus has been built more than two thousand students are enrolled and it is having a transformative effect on the city of Kimberly and the surrounding region. This book aims to mark this achievement to explain how the university came into being and what it now does. It also seeks to convey a sense including a visual sense of the histories and identities that have shaped and inspired SPU. The decision to set up a new university in Kimberly was taken by central government but it was undoubtedly an idea whose time had come. Kimberly and the Northern Cape have proud intellectual traditions and fascinating histories. They have given energy to the new university in the early years of its existence and they have fostered a quite distinctive local and regional identity.

Rainbow Nation My Zulu Arse Sihle Khumalo, 2018-10-12 After exploring more than twenty other African nations using only public transport Sihle Khumalo this time roams within the borders of his own country. The familiarity of his own car is a luxury but what he finds on his journey through South Africa ranges from the puzzling to the downright bizarre. Voyaging from the northernmost part of South Africa right to the south the author noses his car down freeways and back roads into small towns townships and villages some of which you'll have trouble finding on a map. But this is no clichéd description of beautiful landscapes and blue skies. Khumalo is out to investigate the state of the nation from its highest successes to its most depressing failures. Whether or not he's baffled surprised or sometimes plain angry Sihle Khumalo will always find warmth in his fellow South Africans security guards religious visionaries drunks political activists and the many other colourful personalities that come alive in his riveting account.

South African Literary Cultural Nationalism—Abalobi beSizwe eMzansi—1918-45 Nicholas M. Creary, 2018-04-18 This book is an intellectual history that uses Amílcar Cabral's theory of the return to the source to examine Sol Plaatje's *Mhudi* B W Vilakazi's poetry and A C Jordan's *The Wrath of the Ancestors* within the broader context of African cultural nationalisms in the early twentieth century African Atlantic World. It shows the development of the idea of African equality with Whites in the face of prevailing ideas of White supremacy during Union era South Africa. These authors were part of the New African Movement which was one of eight literary movements among Africans and peoples of African descent in the Americas between 1915 and 1945 including the Harlem Renaissance Négritude Claridade in Cape Verde and similar movements in Cuba Haiti Brazil and

Ocholla, Omwoyo Bosire Onyancha, Aderonke Olaitan Adesina, 2024-08-27 This book focuses on information seeking and the knowledge economy for teaching and research in Africa. The book first explores the evolution and current state of information seeking behavior research, demonstrating its importance in informing practice, policy and design of information systems. Despite the informal sector's substantial contributions to the national economy in Uganda, there is a lack of studies delving into its information needs as well as an information gap in government, NGOs and other stakeholders. The book proposes that an appropriate information behavior model for information poor communities such as informal entrepreneurs must be grounded on oral traditions and indigenous knowledge and should be sensitive to poverty, infrastructure and illiteracy. The negative impact of the lack of financial literacy skills for women entrepreneurs is investigated and solutions for this problem are suggested, including regular assessments of women entrepreneurs' financial literacy skills and the introduction of training courses. The role of academic libraries in universities, library services for students with disabilities and accessibility of library services to students with disabilities is discussed and theoretical models for enhancing service in academic libraries are presented. The book highlights the specific challenges and opportunities related to information literacy for secondary schools and concludes by examining the rapid changes in library and information science research in South Africa. *The*

South African Urban Change Three Decades After Apartheid Anthony Lemon, Ronnie Donaldson, Gustav Visser, 2021-06-10 This book provides an analysis of South African urban change over the past three decades It draws on a seminal text *Homes Apart* and revisits conclusions drawn in that collection that marked the final phases of urban apartheid It highlights changes in demography social as well as economic structure and their differential spatial expression across a range of urban sites in South Africa The evidence presented in this book points to a very complex set of narratives in urban South Africa and one that cannot be reduced to a singular statement so the conclusions of the various investigations are in many ways open As urban apartheid represented one clear outcome its post apartheid urban legacies varies greatly from city to city As such this book is a great resource to students and academics focused on urban change in South African cities since the demise of apartheid and scholars of urban policy making in South Africa and Southern urbanists generally

Worlds Elsewhere Andrew Dickson, 2016-04-05 A book about how Shakespeare became fascinated with the world and how the world became fascinated with Shakespeare Ranging ambitiously across four continents and four hundred years *Worlds Elsewhere* is an eye opening account of how Shakespeare went global Seizing inspiration from the playwright's own fascination with travel foreignness and distant worlds *Worlds Elsewhere* never

himself explored Andrew Dickson takes us on an extraordinary journey from Hamlet performed by English actors tramping through the Baltic states in the early sixteen hundreds to the skyscrapers of twenty first century Beijing and Shanghai where Shashibiya survived Mao's Cultural Revolution to become a revered Chinese author En route Dickson traces Nazi Germany's strange love affair with and attempted nationalization of the Bard and delves deep into the history of Bollywood where Shakespearean stories helped give birth to Indian cinema In Johannesburg we discover how Shakespeare was enlisted in the fight to end apartheid In nineteenth century California we encounter shoestring performances of Richard III and Othello in the dusty mining camps and saloon bars of the Gold Rush No other writer's work has been performed translated adapted and altered in such a remarkable variety of cultures and languages Both a cultural history and a literary travelogue Worlds Elsewhere is an attempt to understand how Shakespeare has become the international phenomenon he is and why

Handbook of Research on Mixed Methods Research in Information Science Ngulube, Patrick, 2021-11-26 Mixed methods research is becoming prevalent in many fields yet little has been done to elevate mixed methods research in information science A comprehensive picture of information science and its problems is needed to further understand and address the issues associated with it as well as how mixed methods research can be adapted and used The Handbook of Research on Mixed Methods Research in Information Science discusses the quality of mixed methods studies and methodological transparency sampling in mixed methods research and the application of theory in mixed methods research throughout various contexts Covering topics such as the issues and potential directions for further research in mixed methods this comprehensive major reference work is ideal for researchers policymakers academicians librarians practitioners instructors and students *Historical Dictionary of South Africa* Christopher Saunders, Peter Limb, 2020-12-15 As the most influential and powerful country on the entire continent of Africa an understanding of South Africa's past and its present trends is crucial in appreciating where South Africans are going to and from where they have come South Africa changed dramatically in 1994 when apartheid was dismantled and it became a democratic state Since 2000 when the previous edition appeared further big changes occurred with the rise of new political leaders and of a new black middle class There were also serious problems in governance in public health and the economy but with a remarkable popular resilience too This third edition of *Historical Dictionary of South Africa* contains a chronology an introduction and an extensive bibliography The dictionary section has more than 600 cross referenced entries on important personalities as well as aspects of the country's politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about South Africa **Research Universities in Africa** Cloete, Nico, Bunting, Ian, 2018-11-09 From the early 2000s a new discourse emerged in Africa and the international donor community that higher education was important for development in Africa Within this zeitgeist of converging interests a range of agencies agreed that a different collaborative approach to linking higher education to development was necessary

This led to the establishment of the Higher Education Research and Advocacy Network in Africa Herana to concentrate on research and advocacy about the possible role and contribution of universities to development in Africa This book is the final publication to emerge from the Herana project The project has also published more than 100 articles chapters reports manuals and datasets and many presentations have been delivered to share insights gained from the work done by Herana Given its prolific dissemination it seems reasonable to ask whether this fourth and final publication will offer the reader anything new This book is certainly different from previous publications in several respects First it is the only book to include an analysis of eight African universities based on the full 15 years of empirical data collected by the project Second previous books and reports were published mid project This book has benefited from an extended gestation period allowing the authors and contributors to reflect on the project without the distractions associated with managing and participating in a large scale project For the first time some of those who have been involved in Herana since its inception have had the opportunity to at least make an attempt to see part of the wood for the trees Different does not necessarily mean new An emphasis on the newness of the data and perspectives presented in this book is important because it shows that it is more than a historical record of a donor funded project Rather each chapter in this book brings to a lesser or greater extent something new to our understanding of universities research and development in Africa

Shakespeare in the Global South Sandra Young, 2019-05-16 Contemporary adaptations of Shakespeare s plays have brought into sharp focus the legacies of slavery racism and colonial dispossession that still haunt the global South Looking sideways across the Atlantic and Indian Oceans to nontraditional centres of Shakespeare practice Shakespeare in the Global South explores the solidarities generated by contemporary adaptations and their stories of displacement and survival The book takes its lead from innovative theatre practice in Mauritius North India Brazil post apartheid South Africa and the diasporic urban spaces of the global North to assess the lessons for cultural theory emerging from the new works Using the global South as a critical

frame Sandra Young reflects on the vocabulary scholars have found productive in grappling with the impact of the new iterations of Shakespeare's work through terms such as creolization indigenization localization Africanization and diaspora Shakespeare's presence in the global South invites us to go beyond familiar orthodoxies and to recognize the surprising affinities felt across oceans of difference in time and space that allow Shakespeare's inventiveness to be a part of the enchanting subversions at play in contemporary theatre's global currents

Africa Tony Binns, Etienne Nel, Alan Dixon, 2012-01-11 For many Africa is regarded as a place of mystery and negative images where reports of natural disasters and civil strife dominate media attention with relatively little publicity given to any of the continent's more positive attributes Africa has at last begun to receive the depth of interest it has long deserved in the shape of debates about trade aid and debt the Make Poverty History campaign and the UK's Commission on Africa But behind the superficial media facade Africa is a diverse complex and dynamic place with a rich history and a colonial engagement that although short lived was fundamental in determining the long term future of the continent At the start of the second decade of the twenty first century when the world is engulfed in a major financial crisis Africa has the dubious distinction of being the world's poorest continent This book introduces and demystifies Africa's diversity and dynamism and considers how its peoples and environments have interacted through time and space The background and diversity of Africa's social cultural economic political and environmental systems is examined as well as key development issues which have affected Africa in the past and are likely to be significant in shaping the future of the continent These include the impact of HIV AIDS sources of conflict and post conflict reconstruction the state and governance the nature of African economies in a global context and future development trajectories Africa Diversity and Development is a refreshing interdisciplinary text which enhances understanding of the background to Africa's current position and clarifies possible future scenarios It is richly illustrated throughout with diagrams and plates and contains a wealth of detailed case studies and current data
