

A photograph of a large, multi-story building with Gothic architectural features, including pointed arch windows and a central tower. The building is partially covered in ivy. In the foreground, there are trees with vibrant autumn foliage in shades of orange, red, and yellow. A paved walkway leads towards the building, and a few people can be seen walking in the distance. The overall scene is set during the day under a clear sky.

Giles Gunn

University Of Chicago Essay Prompts 2010:

Ideas to Die For Giles Gunn, 2013-04-12 Cosmopolitanism and Its Discontents seeks to address the kinds of challenges that cosmopolitan perspectives and practices face in a world organized increasingly in relation to a proliferating series of global absolutisms religious political social and economic While these challenges are often used to support the claim that cosmopolitanism is impotent to resist such totalizing ideologies because it is either a Western conceit or a globalist fiction Gunn argues that cosmopolitanism is neither Situating his discussion in an emphatically global context Gunn shows how cosmopolitanism has been effective in resisting such essentialisms and authoritarianisms precisely because it is more pragmatic than prescriptive more self critical than self interested and finds several of its foremost recent expressions in the work of an Indian philosopher a Palestinian writer and South African story tellers This kind of cosmopolitanism offers a genuine ethical alternative to the politics of dogmatism and extremism because it is grounded on a new delineation of the human and opens toward a new indeed an other humanism

The Big Question Alister McGrath, 2024-03-26 McGrath calls for a full bodied humanism invigorated by both scientific reasoning and religious devotion Profound engagement with life defining issues Booklist Richard Dawkins s groundbreaking book *The God Delusion* created an explosion of interest in the relation of science and faith This often troubled relationship between science and religion was seemingly damaged by the rise of the New Atheism which insisted that science had essentially disproved not just God but also the value of religion There is increasing skepticism towards its often glib and superficial answers and the big questions about faith God and science haven t gone away in fact we seem to talk about them more than ever Alister McGrath s *The Big Question* is an accessible engaging account of how science relates to faith exploring how the working methods and assumptions of the natural sciences can be theologically useful McGrath uses stories and analogies as well as personal accounts in order to help readers understand the scientific and theological points he makes and grasp their deeper significance An extremely accomplished scientist and scholar McGrath criticizes the evangelism of the New Atheists and paves a logical well argued road to the compatibility between science and faith Some of his main discussion points include There is much more convergence between science and faith than is usually appreciated How the three great models of scientific explanation can be adapted to religious belief Belief in God provides a big picture of reality making sense of science s successes Another deeply felt entry on two divergent yet ultimately compatible ways of engaging the world and understanding reality Kirkus Reviews

The Oxford Handbook of Topic Theory Danuta Mirka PhD, 2014-10-16 Topics are musical signs developed and employed primarily during the long eighteenth century Their significance relies on associations that are clearly recognizable to the listener with different genres styles and types of music making Topic theory which is used to explain conventional subjects of musical composition in this period is grounded in eighteenth century music theory aesthetics and criticism while drawing also from music cognition and semiotics The concept of topics was introduced into by Leonard Ratner in the 1980s to account for cross references between eighteenth century styles and genres As the invention of a twentieth century academic topic theory as a field is comparatively new and The Oxford Handbook of Topic Theory provides a much needed reconstruction of the field's aesthetic underpinnings The volume grounds the concept of topics in eighteenth century music theory aesthetics and criticism Documenting the historical reality

of individual topics on the basis of eighteenth century sources it traces the origins of topical mixtures to transformations of eighteenth century musical life and relates topical analysis to other methods of music analysis conducted from the perspectives of composers performers and listeners Focusing its scope on eighteenth century musical repertoire The Oxford Handbook of Topic Theory lays the foundation for further investigation of topics in music of the nineteenth twentieth and twenty first centuries

Beholding Violence in Medieval and Early Modern Europe Allie Terry-Fritsch, 2017-07-05
Interested in the ways in which medieval and early modern communities have acted as participants observers and interpreters of events and how they ascribed meaning to them the essays in this interdisciplinary collection explore the concept of beholding and the experiences of individual and collective beholders of violence during the period Addressing a range of medieval and early modern art forms including visual images material objects literary texts and performances the contributors examine the complexities of viewing and the production of knowledge within cultural political and theological contexts In considering new methods to examine the process of beholding violence and the beholder's perspective this volume addresses such questions as How does the process of beholding function in different aesthetic conditions Can we speak of such a thing as the period eye or an acculturated gaze of the viewer If so does this particularize the gaze or does it risk universalizing perception How do violence and pleasure intersect within the visual and literary arts How can an understanding of violence in cultural representation serve as means of knowing the past and as means of understanding and potentially altering the present

Business Ethics: Kant, Virtue, and the Nexus of Duty Richard M. Robinson, 2024-07-13 This book offers students a philosophical introduction to the ethical foundations of business management It combines lessons from Kant with virtue ethics and also touches upon additional approaches such as utilitarianism At the core of the book lies the concept of the nexus of imperfect managerial duty This consists of the creation and reinforcement of virtuous managerial teams engagement of discourse among all stakeholders and pursuit of business responsibilities including the creative efforts necessary for modern organizations A variety of special problems in managerial ethics are also explored such as the ethics of managerial paternalism fairness in stakeholder negotiations devolution of business into scandalous corruption and the role of boycotts in society's shaping of managerial duties Case illustrations of these applications are presented throughout the book including in chapter appendices A series of brief answer questions essay questions and discussion questions are presented at the end of each chapter Links to relevant video presentations of lectures applicable for each chapter are also provided

A Medium Seen Otherwise Roger Hallas, 2023 Through a new look at how political historical and art documentaries engage with photographic images objects and archives *A Medium Seen Otherwise* argues that film allows us to better understand what people do with analog and digital photographs as material objects that enable social and political relations through multisensory experience Moreover as a time based medium with sound film can bring the event of photography into fuller view demonstrating how no single participant in it photographer subject camera photograph or viewer has sovereignty over its affect meaning or value The book thus explores the ways in which the innovative incorporation of photography into documentary film permits us to see both of these media otherwise Photographs whether professional or vernacular are conventionally understood to furnish documentaries with indexical evidence and visual illustration of history yet the spatio temporal and aural dimensions of film permit documentaries to illuminate photography's wider capacities beyond the merely representational Combining new critical perspectives on well known documentary filmmakers and photographers Agnès Varda Rithy Panh Edward Burtynsky Malick Sidibé Vivian Maier JR Ken Burns Errol Morris and Akram Zaatari with analyses of lesser known but important documentaries author Roger Hallas investigates a global range of documentary and vernacular photographic contexts including Lebanon Palestine Mali Congo Cambodia Ireland Spain Mexico Chile Canada and the US While authorship and representation remain common rhetorical frameworks for documentaries about photography *A Medium Seen Otherwise* offers a compelling account of how the intermediality between documentary film and photography can posit far more expansive conceptions of both media A companion website shows clips of films discussed in the book

David Foster Wallace and the Body Peter Sloane, 2019-05-17 *David Foster Wallace and the Body* is the first full length study to

focus on Wallace's career-long fascination with the human body and the textual representation of the body. The book provides engaging accessible close readings that highlight the importance of the overlooked and yet central theme of all of this major American author's works: having a body. Wallace repeatedly made clear that good fiction is about what it means to be a human being. A large part of what that means is having a body and being conscious of the conflicts that arise morally and physically as a result, a fact with which, as Wallace forcefully and convincingly argues, we all desire to be reconciled. Given the ubiquity of the themes of embodiment in Wallace's work, this study is an important addition to an expanding field. The book also opens up the themes addressed to interrogate aspects of contemporary literature, culture, and society more generally, placing Wallace's works in the history of literary and philosophical engagements with the brute fact of embodiment. Paul Ricœur, Philosophical Hermeneutics, and the Question of Revelation

Christina M. Gschwandtner, 2024-01-08. The topic of revelation is fundamental to any account of religious experience, playing a special role in the Judeo-Christian tradition where the texts of Scripture are regarded as revealed. Yet any reflection on the revealed status of a given message or text requires interpretation. Paul Ricoeur, one of the most important hermeneutic philosophers of the twentieth century, provides crucial insights on how such interpretation might proceed and what it might mean for texts to be revealed. Edited by Christina M. Gschwandtner, *Paul Ricoeur, Philosophical Hermeneutics, and the Question of Revelation* brings together major scholars of Ricoeur's work on the topic of revelation, showing both the role it already plays in his work and how his thinking might be taken further. Several contributors trace the development of his thought in regard to the concept of revelation. Others discuss the revelatory dimensions of Ricoeur's hermeneutics of the self, especially for such issues as identity, trauma, and forgiveness. Several contributions also place his work in conversation with that of other seminal thinkers on the topic of revelation, such as Karl Barth and Paul Tillich.

Immersive Gameplay Evan Torner, William J. White, 2014-01-10. This collection of all new essays approaches the topic of immersion as a product of social and media relations. Examining the premises and aesthetics of live action and tabletop role playing games, reality television, social media apps, and first person shooters, the essays take both game rules and the media discourse that games produce as serious objects of study. Scholars of social psychology, sociology, role playing theory, game studies, and television studies all examine games and game-like environments like reality shows as interdependent sites of social friction and power negotiation. The ten essays articulate the importance of game rules in analyses of media products and demonstrate methods that allow game rules to be seen in action during the process of play.
