Public Transportation in Kenya (A Phenomenological Study of Transport Issues) Joseph Kamau Muguro, Paul Waweru Njeri, Minoru Sasaki, 2024-08-16 Public Transportation in Kenya provides an in depth examination of the significant challenges faced by Kenya's public transportation system using a phenomenological approach to highlight the real world experiences of commuters and stakeholders. The book addresses two primary goals: to explain the severe impact of transportation issues on millions of Kenyans including loss of livelihoods, disabilities, and fatalities, and to propose solutions aimed at reducing road traffic accidents and improving overall transportation safety. The chapters begin with a review of Kenya's transport studies and current state, followed by an analysis of road traffic accident data and contributing factors. Subsequent sections explore the inadequacies in infrastructure, traffic law and enforcement, and the challenges posed by incomplete data collection. The book also details an innovative study using data mining and natural language processing (NLP) on over one million traffic-related tweets to uncover commuter trends and driver behaviors. The final set of chapters presents comprehensive recommendations for improving road safety, enhancing infrastructure, and reforming policing practices to better manage traffic and transportation issues. Key features of this book include the use of both structured and unstructured data for a robust analysis, practical solutions for policymakers, and an innovative methodological approach utilizing NLP and data mining to analyze the issues presented. References and summaries are also provided in each chapter to make information accessible. These elements make the book a valuable resource for researchers, academics, policymakers, transportation professionals, and anyone interested in the socio-economic impacts of public transportation in Kenya and other African countries. Public Transportation in Kenya is essential reading for those looking to understand and address the critical transportation challenges that affect millions daily, providing insights and solutions that can lead to safer and more efficient transport systems.

Maize productivity gains through research and technology dissemination J. K. Ransom, 1997

An Uncertain Age Paul Ocobock, 2017-03-27 In twentieth century Kenya, age and gender were powerful cultural and political forces that animated household and generational relationships. They also shaped East Africans' contact with and influence on emergent colonial and global ideas about age and masculinity. Kenyan men and boys came of age achieving their manhood through changing rites of passage and access to new outlets such as town life, crime, anticolonial violence, and nationalism. And as they did, the colonial government appropriated masculinity and maturity as means of statecraft and control. In *An Uncertain Age*, Paul Ocobock positions age and gender at the heart of everyday life and state building in Kenya. He excavates in unprecedented ways how the evolving concept of youth motivated and energized colonial power and the movements against it, exploring the masculinities boys and young men debated and performed as they crisscrossed the colony in search of wages or took the Mau Mau oath. Yet he also considers how British officials' own ideas about masculinity shaped not only young African men's ideas about manhood but the very nature of colonial rule. *An Uncertain Age* joins a growing number of histories that have begun to break down monolithic male identities to push the historiographies of Kenya and
