University Of Limpopo Application For 2015:

Culture, philosophies and reforms in public administration for the globalizing world Edwin O.C.

Ijeoma,Ogochukwu I. Nzewi,2018-12-31 The aim of this scholarly collected work is to contribute to the scientific discourse on public administration in a globalised environment The book reflects on governance challenges in South Africa and in Africa with its point of departure being the master narratives the so called grand debates such as New Public Management and specifically the role of technology It also reflects on the so called middle range discourses concerning organisational level issues in government e g leadership and work procedures and explores new solutions to old governance challenges like corruption and service delivery The uniqueness of this collected work lies in its ability to reflect on existing philosophies and practices in an innovative way Through its multidisciplinary lens the book opens up a new vision for the future of public administration in the South African context and on the African continent not neglecting the current local regional and global environment Until recently globalisation was considered an entrenched world order but international political events during the course of the past few years have resulted in one of the biggest challenges to its endurance in recent history This includes developments such as the successful referendum in Britain to exit the European Union highlighting the growth of a severe nationalist and protectionist agenda that may be a signal of the unravelling of the current globalism world order These developments inspire deeper interrogation of the challenges to effective public administration globally and the ripple effects in South Africa and Africa as a whole Pointedly it is evident that ensuring the voice of citizens in policy decision making remains a critical governance challenge On the policy front there are perennial challenges of land reform service delivery and poverty while on the governance front corruption has metastasised with a growing culture of impunity and lack of accountability in leadership In the midst of growing corruption and more than 20 years into democracy South Africa s income inequality remains one of the highest in the world This setting constitutes the context of the research outcome published in this scholarly work

The South African State Transformed? Louis A. Picard, Thomas M. Mogale, Caitlin C. Corrigan, 2024-09-10 This book examines the nature of the 1994 political transition in South Africa and its impact on post apartheid South Africa Specifically it examines the failures of liberalism within the context of the transitional process that led to the institution if not the practice of a non racial state in 1994 The term liberal is an eclectic term defining a several of views political and economic We use the term here within context but essentially define it as a commitment to open views the willingness to consider change and to value basic human rights The nature of institutional change in South Africa as it moved towards a democratic state would influence whether South Africa would succeed as a newly industrializing pluralist democratic country or collapse into yet another African failed state As South Africa moves toward its fourth decade of majority rule the view towards the future is much less promising than it was in 1994

Higher Education Pathways Ashwin, Paul, Case, Jennifer M., 2018-12-14 In what ways does access to undergraduate education have a transformative impact on people and societies What conditions are required for this impact to occur What are the pathways from an undergraduate education to the public good including inclusive economic development These questions have particular resonance in the South African higher education context which is attempting to tackle the challenges of widening access and improving completion rates in a system in which the segregations of the apartheid years are still apparent Higher education is recognised in core legislation as having a distinctive and crucial role in building post apartheid society Undergraduate education is seen as central to addressing skills shortages in South Africa It is also seen to yield significant social returns including a consistent positive impact on societal institutions and the development of a range of capabilities

that have public as well as private benefits This book offers comprehensive contemporary evidence that allows for a fresh engagement with these pressing issues

Science Cultures in a Diverse World: Knowing, Sharing, Caring Bernard Schiele, Xuan Liu, Martin W. Bauer, 2021-09-13 Science and technology culture is now more than ever at the very heart of the social project and all countries to varying degrees participate in it raising scientific literacy improving the image of the sciences involving the public in debates and encouraging the young to pursue careers in the sciences Thus the very destiny of any society is now entwined with its ability to develop a genuine science and technology culture accessible for participation not only to the few who by virtue of their training or trade work in the science and technology fields but to all thereby creating occasions for society to debate and to foster a positive dialogue about the directions of change and future choices This book organized on the theme of knowing sharing caring new insights for a diverse world which was derived from the observation that globalization rests upon diversity diversity of contexts publics research strategies and new innovating practices and aims to stimulate exchanges discussions and debates to initiate a reflection conducive to decentring and to be an opportunity for enrichment by providing the reader with means to achieve the potentialities of that diversity through a comparison of the visions that underpin the attitudes of social actors the challenges they perceive and the potential solutions they consider Thus this book aims first and foremost to raise questions in such a manner that readers so stimulated will feel compelled to contribute and will do so In this spirit however significant the results presented and shared are less important than the questions they seek to answer How are we to rethink the diffusion the propagation and the sharing of scientific thought and knowledge in an ever more complex and diverse world What to know What to share How do we do it when science is broken down across the whole spectrum of the world s diversity The book is recommended for those who are

interested in science communication and science cultures in the new media era in contemporary social dynamics and in the evolution of the role of the state and of institutions It is also an excellent reference for researchers engaging in science communication public understanding of science cultural studies science and technology museum science society relationship and other fields of humanities and social sciences **Limpopo's Legacy** Anne Heffernan,2019 Argues that the historical primacy of youth politics in Limpopo South Africa has influenced the production of generations of nationally prominent youth and student activists among them Julius Malema Onkgopotse Tiro Cyril Ramaphosa Frank Chikane and Peter Mokaba

Sustainable Management of Soil and Environment Ram Swaroop Meena,Sandeep Kumar,Jitendra Singh Bohra,Mangi Lal Jat,2019-10-02 Fertilizers have been used extensively around the globe since the Green Revolution due to the high subsidies However extensive fertilizer use exacerbates soil degradation and causes yield stagnation and as a result threatens food security and soil sustainability especially in developing countries This means that sustainable soil and environmental management are vital to provide food and nutritional security for present and future generations This has led to the International Union of Soil Science IUSS declaring 2015 2024 the International Decade of Soils This book focuses on the impact of sustainable management of soil and environment on improving the functioning of soil ecosystems and agronomic productivity and also discusses food security nutrient cycling recent advances in INM technologies eco friendly cultivation agricultural practices to reduce greenhouse gas GHG emissions as well as conservation agriculture and its effects and strategies for soil sustainability Offering a comprehensive overview of management in the context of the sustainability of soil and the agroecosystems that it supports it demonstrates the options available and provides insights into restoring soil health and matching soil nutrient supply with crop demand to ensure nutritional security in an eco friendly environment

Beyond Tenderpreneurship MISTRA MISTRA,2020-04-16 Black Economic Empowerment BEE policies have been a central pillar of attempts to overcome the economic legacy of apartheid Yet more than two decades into democracy economic exclusion in South Africa still largely reflects the fault lines of the apartheid era Current discourse often conflates BEE with the so called tenderpreneurship referred to in the title namely the reliance of some emergent black capitalists on state patronage Authors go beyond this notion to understand BEEs role from a unique perspective They trace the history of black entrepreneurship and how deliberate policies under colonialism and its apartheid variant sought to suppress this impulse In the context of modern South Africa authors interrogate the complex dynamics of class formation economic empowerment and redress against the backdrop of broader macroeconomic policies They examine questions relating to whether BEE policies are informed by strategies to change the structure of the economy These issues are explored against the backdrop of the experiences of other developing countries and their journeys of industrialisation The relevant black empowerment experiences of countries such as the United States are also discussed The authors identify policy and programmatic interventions to forge the non racial future that the constitution enjoins South Africans to build The Wiley Handbook of

Home Education Milton Gaither, 2016-12-12 The Wiley Handbook of Home Education is a comprehensive collection of the latest scholarship in all aspects of home education in the United States and abroad Presents the latest findings on academic achievement of home schooled children issues of socialization and legal argumentation about home schooling and government regulation A truly global perspective on home education this handbook includes the disparate work of scholars outside of the U S Typically understudied topics are addressed such as the emotional lives of home educating mothers and the impact of home education on young adults Writing is accessible to students scholars educators and anyone interested in home schooling issues

Youth In South Africa Ariane De Lannoy, Malose Langa, 2021-05-05 South Africa is characterised by a youthful population and the challenges and possibilities that characterise the young generation are both warning signs and beacons of hope for a nation founded on social justice Youth in South Africa Agency in visibility and national development takes stock of the nation's development as it affects young people Authors offer both personal and professional insights into the ways in which the youth navigate their own pathways to adulthood These include formal and informal engagements with politics as well as protest unemployment entrepreneurship education religion experiences with sexuality and violence and a multitude of other life experiences Contributors paint a picture of the initiative agency and resilience of the youth as well as the challenges before them Authors also identify the state of wait-hood faced by those unable to make the transition out of youth into full adulthood as a result of their socio-economic circumstances and political context By engaging these experiences and insights and primarily informed by the inputs of young people the authors highlight the limitations of existing youth policies and frameworks The case is made for policy instruments to be informed by the lived experiences of the youth as they navigate a complex macrosocial environment and by the messages the youth communicate about the limitations of current approaches
