Management and Life Cycle Assessment for Sustainable Business Practice is an authoritative response to this pressing global challenge. Delving into the issues surrounding the environmental impact of economic activities, it explores the intersection where industries must navigate the delicate balance between profit making and the preservation of our planet. This book delves into the disconcerting truth that industries are substantial contributors to the global emissions of greenhouse gases. It presents a compelling case supported by the United Nations Environment Program's findings that businesses wield immense power in either perpetuating environmental degradation or steering us towards a greener, more sustainable future. Despite the growing voices for eco-friendly practices, businesses often find themselves caught in the tug of war between profitability and environmental responsibility. This book argues that the time for a shift towards sustainable business practices is now, offering a comprehensive guide to academic scholars, researchers, and professionals seeking to understand and implement transformative strategies.

Framing the Race in South Africa Karen E. Ferree, 2010-11-15 Post-apartheid South African elections have borne an unmistakable racial imprint. Africans vote for one set of parties, whites support a different set of parties, and with few exceptions, there is no crossover voting between groups. These voting tendencies have solidified the dominance of the ruling African National Congress (ANC) over South African politics and turned South African elections into racial censuses. This book explores the political sources of these outcomes. It argues that although the beginnings of these patterns lie in South Africa's past, in the effects apartheid had on voters' beliefs about race and destiny and the reputations parties forged during this period, the endurance of the census reflects the ruling party's ability to use the powers of office to prevent the opposition from evolving away from its apartheid-era party label. By keeping key opposition parties white, the ANC has rendered them powerless, solidifying its hold on power in spite of an increasingly restive and dissatisfied electorate.
