Fagbadebo, Fayth Ruffin, 2018-08-03 This book examines the problem of accountability in two African political systems South Africa and Nigeria Despite the principle of separation of powers and the doctrine of checks and balances among the institutions of governance a burgeoning governance crisis stifles the potential of accountability and good governance Legislative oversight in the two countries remains largely ineffective while citizens are left to face the consequences of the mismanagement of public resources by political elites This book critically assesses how the legislative institutions in South Africa and Nigeria have been unable to harness the requisite constitutional powers to ensure accountability in government and explores the feasibility of their effectiveness The book begins with a comparative analysis of the principles tradition and powers associated with legislative capability in South Africa and Nigeria The chapters explore constitutional provisions and analyze the capacity of each legislature to function within its respective political environment The book also examines the process and challenges associated with the various measures and mechanisms available for legislatures to ensure accountability in the two countries Researchers scholars and students of African politics will find this book useful in their understanding of the problems associated with the simmering governance crisis in South Africa and Nigeria
