University Of Zambia Admissions 2014:

Daily Graphic Ransford Tetteh, 2014-04-04 **Topics in Heart Failure Management** Giuseppe Rescigno, Michael S. Firstenberg, 2019-06-19 This textbook represents a short update on original aspects of heart failure. It covers topics of heart failure management such as prevention, drug monitoring after heart transplant and the critical care approach. There are also chapters on less common facets of this syndrome such as prevalence and features in a specific African region and the complexity of telemedicine in heart failure. In summary, it will be a valid adjunct to more exhaustive textbooks already available.

Widening University Access and Participation in the Global South Edward Mboyonga, 2024-12-31 Using a capability approach as an analytical framework, this timely volume examines how access to higher education enabled through private universities can transform students' lives and contribute to human development in low income countries in the Global South. Providing new insights into the contribution of the private higher education sector in Africa's developmental agendas, the book offers an alternative to human capital theory by offering an expansive notion on the value of higher education, emphasising both the economic and the intrinsic societal and social benefits that come from access to university and raised aspirations. The chapters identify and discuss six specific capabilities valued by students that higher education provides. This includes epistemological access, epistemic contribution, aspiration, recognition, respect and belonging, Ubuntu and employability. The book foregrounds the voices of students and lecturers to explore students' aspirations, agency, access and participation. Ultimately, promoting a reconsideration of access to higher education beyond numerical terms by focusing on students' access to transformative knowledge as means to promote their freedom to achieve well-being, the book will appeal to scholars, researchers and postgraduate students in higher education, African education studies and international and comparative education more broadly.

Unsettling Apologies Melanie Judge, Dee Smythe, 2022-09-29 There has recently been a global resurgence of demands for the acknowledgement of historical and contemporary wrongs as well as for apologies and reparation for harms suffered. Drawing on the histories of injustice, dispossession and violence in South Africa, this book examines the cultural, political and legal role and value of an apology. It explores the multiple ways in which 'sorry' is instituted, articulated and performed and critically analyses its various forms and functions in both historical and contemporary moments. Bringing together an interdisciplinary team of contributors, the book's analysis offers insights that will be invaluable to global debates on the struggle for justice.

Uwenzí David O. Akombo, Baruti I. Katembo, Kmt G. Shockley, 2015-12-30 **UWENZÍ: The Pan African Factor A 21st Century View** seeks to facilitate a much needed and provocative 21st century dialogue on optimizing the global linkage, networking and appreciation of African peoples' resources, culture and interests, i.e. Pan Africanism.  Preedy,Vinood B. Patel,Rajkumar Rajendram,2025-09-26 This comprehensive handbook covers the entire range of physical
 disorders and their interrelated psychological problems Behavioral changes altered psychology and in some cases severe
 psychiatric conditions are frequent manifestations of communicable and non communicable disease While diseases have
 predictable trajectories their psychological co morbidities do not This unpredictability and sometimes lack of understanding
 can have profound effects on the professional the patient and the larger family unit Mental health related domains of quality
 of life measure also impact the disease process but are often overlooked Critical information targeted to experts within
 specialized areas can fail to reach a wider group of more general practitioners This is complicated by the fact that
 psychological conditions may prompt organic disease or conversely disease may set off psychological disorders This
 reference work creates the linkage between the two areas in a manner that is accessible to both experts and non experts
 alike **Research and Discussions in Critical Discourses and Remedies in Global Health Education** Ashti A.

 disparities However with deeply rooted colonial assumptions racism elitism and other forms of bias underlying institutions
