From Memory to Marble Elizabeth Rankin, Rolf Michael

Schneider, 2020-09-07 For the first time the 92 metre frieze of the Voortrekker Monument in Pretoria one of the largest historical narratives in marble has been made the subject of a book The pictorial narrative of the Boer pioneers who conquered South Africa's interior during the Great Trek 1835-52 represents a crucial period of South Africa's past Conceptualising the frieze both reflected on and contributed to the country's socio-political debates in the 1930s and 1940s when it was made The book considers the active role the Monument played in the rise of Afrikaner nationalism and the development of apartheid as well as its place in post-apartheid heritage The frieze is unique in that it provides rare evidence of the complex processes followed in creating a major monument Based on unpublished documents drawings and models these processes are unfolded step by step from the earliest discussions of the purpose and content of the frieze through all the stages of its design to its shipping to post-war Italy to be copied into marble from Monte Altissimo up to its final installation in the Monument The book examines how visual representation transforms historical memory in what it chooses to recount and the forms in which it is depicted The second volume expands on the first by investigating each of the twenty-seven scenes of the frieze in depth providing new insights into not only the frieze but also South Africa's history Françoise van Schalkwyk of African Minds co-publisher with De Gruyter writes From Memory to Marble is an open access monograph in the true sense of the word Both volumes of the digital version of the book are available in full and free of charge from the date of publication This approach to publishing democratises access to the latest scholarly publications across the globe At the same time a book such as From Memory to Marble with its unique and exquisite photographs of the frieze as well as its wealth of reproduced archival materials demands reception of a more traditional kind that is on the printed page For this reason the book is likewise available in print as two separate volumes The printed and digital books should not be seen as separate incarnations each brings its own advantages working together to extend the reach and utility of From Memory to Marble to a range of interested readers For more material you can browse at Stanford's database Voortrekker Monumentality a digital archive

Socio-Spatial Small Town Dynamics in South Africa Ronnie Donaldson, 2023-07-14 This book explores small town geographical aspects by approaching them from a socio-spatial perspective The contributions included in this book delve into a range of topics that have not been commonly studied before such as white privilege neglect of municipal infrastructure collaborative governance livelihoods in small scale fisheries housing provision well-being in mining towns studentification in rural contexts election trends and the historical development of small town spas The book adopts a socio-spatial point of view providing a holistic understanding of the interplay between social and spatial factors within selected small town case studies This approach sheds light on the socio-economic political and cultural dynamics that shape small towns This localized perspective allows for a more targeted analysis of issues and potential solutions taking into account the specific historical cultural and political contexts of small town South Africa The edited volume serves as a valuable resource for academics

Digitalization - Global Perspectives Marianne Kneuer, Helen V. Milner, 2019-07-29 Digitalization is not only a new research subject for political science but a transformative force for the discipline in terms of teaching and learning as well as research methods and publishing This volume provides the first account of the influence of digitalization on the discipline of political science including contributions from 20 different countries It presents a regional stocktaking of the challenges and opportunities of digitalization in most world regions Understanding Place and Destination Branding Stella Kladou, Ahmet Uşaklı, 2025-10-07 Interdisciplinary and international in scope this book explores the ways in which branding intersects with identity politics and the complex relationship with our past It focuses on providing a comprehensive understanding of the differences and similarities between place and destination branding analysing different rural urban and national contexts

Where Am I in the Picture? Claudia Mitchell, Katarina Giritli-Nygren, Relebohile Molestane, 2023-12-18 Positionality and researcher reflexivity how to account for one s subject position remain as challenges for new researchers But they also remain as challenges for experienced researchers who are often involved in multiple research projects simultaneously Where Am I in the Picture sheds light on the idea of researcher positionality through visual methodologies particularly in the context

of studying rurality in Canada Sweden and South Africa The book is intended for new and experienced researchers seeking to decolonize their own perspectives in research in the social sciences and humanities It incorporates photographs drawings and memory work to highlight the social constructedness of what counts as rural Drawing together compelling narratives from researchers about their positionality in studying rurality the book highlights a need for greater attention to where we are in the picture more broadly It suggests that when it comes to the rural researchers need to rethink the interplay of dominant images insider and outsider perspectives and what this interplay means in relation to interpretation Where Am I in the Picture presents a new vision of how to take into consideration positionality in research

Doctoral Education in South Africa Cloete, Nico, Mouton, Johann, 2015-12-08 Worldwide in Africa and in South Africa the importance of the doctorate has increased disproportionately in relation to its share of the overall graduate output over the past decade This heightened attention has not only been concerned with the traditional role of the PhD namely the provision of future academics rather it has focused on the increasingly important role that higher education and particularly high level skills is perceived to play in national development and the knowledge economy This book is unique in the area of research into doctoral studies because it draws on a large number of studies conducted by the Centre of Higher Education Trust CHET and the Centre for Research on Evaluation Science and Technology CREST as well as on studies from the rest of Africa and the world In addition to the historical studies new quantitative and qualitative research was undertaken to produce the evidence base for the analyses presented in the book The findings presented in *Doctoral Education in South Africa* pose anew at least six tough policy questions that the country has struggled with since 1994 and continues to struggle with if it wishes to gear up the system to meet the target of 5 000 new doctorates a year by 2030 Discourses framed around the single imperatives of growth efficiency transformation or quality will not however generate the kind of policy discourses required to resolve these tough policy questions effectively What is needed is a change in approach that accommodates multiple imperatives and allows for these to be addressed simultaneously

Healing Roots Julie Laplante, 2015-02-01 Umhlonyane also known as Artemisia afra is one of the oldest and best documented indigenous medicines in South Africa This bush which grows wild throughout the sub Saharan region smells and tastes like medicine thus easily making its way into people s lives and becoming the choice of everyday healing for Xhosa healer diviners and Rastafarian herbalists This natural remedy has recently sparked curiosity as scientists search for new molecules against a tuberculosis pandemic while hoping to recognize indigenous medicine Laplante follows umhlonyane on its trails and trials of becoming a biopharmaceutical from the open air to controlled environments learning from the plant and from the people who use it with hopes in healing
