The Unteachables Keith A. Mayes, 2023-01-24 How special education used disability labels to marginalize Black students in public schools The Unteachables examines the overrepresentation of Black students in special education over the course of the twentieth century As African American children integrated predominantly white schools many were disproportionately labeled educable mentally retarded EMR learning disabled LD and emotionally behavioral disordered EBD Keith A Mayes charts the evolution of disability categories and how these labels kept Black learners segregated in American classrooms The civil rights and the educational disability rights movements Mayes shows have both collaborated and worked at cross purposes since the beginning of school desegregation Disability rights advocates built upon the opportunity provided by the civil rights movement to make claims about student invisibility at the level of intellectual and cognitive disabilities Although special education ostensibly included children from all racial groups educational disability rights advocates focused on the needs of white disabled students while school systems used disability discourses to malign and marginalize Black students From the 1940s to the present social science researchers policymakers school administrators and teachers have each contributed to the overrepresentation of Black students in special education Excavating the deep seated racism embedded in both the public school system and public policy The Unteachables explores the discriminatory labeling of Black students and how it indelibly contributed to special education disproportionality to student discipline and push out practices and to the school to prison pipeline effect Universal Dictionary of the English Language, 1896 *The Modern Eclectic Dictionary of the English Language* Robert Hunter, Charles Morris, 1905 **The American Encyclopaedic Dictionary**, 1894 **The Routledge Handbook of Translation and Education** Sara Laviosa, Maria González-Davies, 2019-12-06 The Routledge Handbook of Translation and Education will present the state of the art of the place and role of translation in educational contexts worldwide It lays a sound foundation for the future interdisciplinary cooperation between Translation Studies and Educational Linguistics By adopting a transdisciplinary perspective the handbook will bring together the various fields of scholarly enquiry and practice that make a valuable contribution to enlarging the notion of translation and diversifying its uses in education Each contribution provides an overview of the historical background to a given educational setting Focusing on current research approaches and empirical findings this volume outlines the development of pedagogical approaches methods assessment and curriculum design The handbook also examines examples of pedagogies that integrate translation in the curriculum the teaching method s approach design and procedure as well as assessment Based on a multilingual and applied oriented approach the handbook is essential reading for postgraduate students researchers and advanced undergraduate students of Translation Studies and educationalists and educators in the 21st century post global era Chapters 4 25 and 26 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com>
