Untitled The Others 5 Anne Bishop:

Collections for a History of Staffordshire, 1912 *A Genealogical Record of the Descendants of Christian and Hans Meyer and Other Pioneers* Abraham James Fretz, 1896 *Criminal-Inquisitorial Trials in English Church Trials* Henry Ansgar Kelly, 2023-09-22 After inquisitorial procedure was introduced at the Fourth Lateran Council in Rome in 1215 the same year as England's first Magna Carta virtually all court trials initiated by bishops and their subordinates were inquisitions. That meant that accusers were no longer needed. Rather the judges themselves leveled charges against persons when they were publicly suspected of specific offenses like fornication or witchcraft or simony. Secret crimes were off limits including sins of thought like holding a heretical belief. Defendants were allowed full defenses if they denied charges. These canonical rules were systematically violated by heresy inquisitors in France and elsewhere especially by forcing self incrimination. But in England due process was generally honored and the rights of defendants preserved though with notable exceptions. In this book Henry Ansgar Kelly a noted forensic historian describes the reception and application of inquisition in England from the thirteenth century onwards and analyzes all levels of trial proceedings both minor and major from accusations of sexual offenses and cheating on tithes to matters of religious dissent. He covers the trials of the Knights Templar early in the fourteenth century and the prosecutions of followers of John Wyclif at the end of the century. He details how the alleged crimes of criminous clerics were handled and demonstrates that the judicial actions concerning Henry VIII's marriages were inquisitions in which the king himself and his queens were defendants. Trials of Alice Kyteler Margery Kempe Eleanor Cobham and Anne Askew are explained as are the unjust trials condemning Bishop Reginald Pecock of error and heresy 1457-59 and Richard Hunne for defending English Bibles 1514. He deals with the trials of Lutheran dissidents at the time of Thomas More's chancellorship and trials of bishops under Edward VI and Queen Mary including those against Stephen Gardiner and Thomas Cranmer. Under Queen Elizabeth Kelly shows there was a return to the letter of papal canon law which was not true of the papal curia. In his conclusion he responds to the strictures of Sir John Baker against inquisitorial procedure and argues that it compares favorably to the common law trial by jury.
