Leo Rastogi, PhD

Upanisads Oxford Worlds Classics:

Upanisads, 2008-04-17 The Upanisads are the central scriptures of Hinduism representing some of the most important literary products in the history of Indian culture and religion This is the first major English translation of the ancient Upanisads for over 50 years its up to date introduction and detailed notes make the edition ideal for non specialists as well as students of Indian religions

The Early Upanishads, 1998-09-24 This is the full edition of the early Upanisads the central scriptures of Hinduism Featuring Patrick Olivelle s acclaimed new English translation Oxford 1996 it also includes the complete Sanskrit text as well as variant readings scholarly emendations and explanations of Olivelle s choices of particular readings The volume also contains a concordance of the two recensions of the Brhadaranyaka Upanisad and an extensive bibliography

Learning from Other Religious Traditions Hans Gustafson, 2018-05-16 This book brings together academic scholars from across various religious traditions to reflect on the beauty they find in traditions other than their own They examine these aspects and reflect on how they inform and constructively assist with rethinking their own religious worldviews and practices Each scholar investigates the various implications questions insights and challenges that are generated in the process of doing so Traditions discussed include satr Heathenism Buddhism Catholicism Evangelical Christianity Hinduism Islam Judaism LDS Mormon Christianity Lutheranism Presbyterianism Sikhism Sufism Western Buddhism and Zen Mah y na Buddhism Instead of focusing only or primarily on the theory and practice of interreligious dialogue this book presents living examples of learning from other religious traditions identities and persons

The Essence of Religions Christophor Coppes, 2013-03 As we move away from worn out dogma from both the religious and scientific realms toward a contemporary synthesis of understanding about our existence Christophor s refreshing and comprehensive analysis of major religions in light of the profound lessons from numerous NDE journeyers offers a rich new tapestry of understanding that I find most valuable

The Book of Heaven Carol Zaleski, Philip Zaleski, 2000 This rich anthology of writings about heaven spans the millennia as well as the globe the sacred chants of the Buddhist Pure Land sutras reverberate alongside John Donne s holy sonnets and Shaker songs complement Jewish mystical hymns 10 illustrations

Reflections on Contemporary Values, Beliefs and Behaviours Prasanna Gautam, 2018-04-18 This book is a unique presentation of common but highly important issues that affect us all deeply These are illustrated with personal anecdotes to which the readers can relate and compare with their own experiences in life Each chapter is independent and presented in a conversational manner which makes reading easy The book deals with a wide range of subjects such as sex and sexuality euthanasia self confidence superstition religion evolution parenting conflicts leadership and the interpretation of scriptures among others In addition to presenting the essence of many philosophical concepts and contrasting them with scientific evidence the book asserts that our world has never before been richer and more technically advanced but that our unthinking brains have precipitated unhappiness conflicts poverty greed crime and selfishness A book of huge interest generally this is

also useful as a handy source of information for the students of humanities the linguists and translators of ancient languages

The Upanishads: Stories of the Self with Graham Burns Graham Burns,Wise Studies,2020-10-01 In this 5 lecture series Graham Burns gives a broad overview of the Upanishads explaining the history and culture in which they arose He takes you through several themes that are explored in some of the more prominent Upanishads He illuminates important concepts that begin to form the foundation of much of Indian thought Graham presents this lecture series in a clear intelligent way that is sure to make the wisdom of the Upanishads accessible for anyone interested in learning more about the foundations of Indian philosophy Session 1 Introduction to the Upanishads their historical background Session 2 Key ideas found throughout the Upanishads Session 3 Exploring the narratives found throughout the texts Session 4 Stories of Atman or the Self Session 5 Philosophical interpretations the upanishads by eknath easwaran hindu scriptures vedic texts hindu philosophy hindu atman brahman meaning ego soul self the upanishads kindle veda vedas in english self actualization know thy true self eternal path

Quantum Reality and Theory of Śūnya Siddheshwar Rameshwar Bhatt,2019-03-30 The book deals with expounding the nature of Reality as it is understood in contemporary times in Quantum Physics It also explains the classical Indian theory of *nyā* in its diverse facets Thereafter it undertakes comparison between the two which is an area of great topical interest It is a cross disciplinary study by erudite Indian and western scholars between traditional Indian knowledge system and contemporary researches in Physical sciences It points out how the theory of *nyā* has many seminal ideas and theories in common with contemporary Quantum Physics The learned authors have tried to dissolve the mysteries of Quantum Physics and resolved its weird paradoxes with the help of theory of *nyā* The issue of non separability or entanglement has been approached with the help of the Buddhist theory of *Pratītyasamutpāda* The paradoxical situation of wave particle duality has been explained with the help of Upaniadic theory of complementarity of the two opposites The measurement problem represented by Schrodinger's cat has been dealt with by resorting to two forms of the calculation of probabilities Some writers have argued for *nyā* like non essentialist position to understand quantum reality To make sense of quantum theory some papers provide a happy symbiosis of technical understanding and personal meditative experience by drawing multifarious parallels This book will be of interest to philosophically inclined physicists and philosophers with interest in quantum mechanics

The Routledge Handbook of Literary Translation Kelly Washbourne,Ben Van Wyke,2018-10-10 The Routledge Handbook of Literary Translation provides an accessible diverse and extensive overview of literary translation today This next generation volume brings together principles case studies precepts histories and process knowledge from practitioners in sixteen different countries Divided into four parts the book covers many of literary translation's most pressing concerns today from teaching to theorising to translation techniques to new tools and resources Featuring genre studies in which graphic novels crime fiction and ethnopoetry have pride of place alongside classics and sacred texts The Routledge Handbook of Literary Translation represents a vital resource for students and researchers of both translation

studies and comparative literature *The Spirituality Engine* Abhijit Naskar, 2016-12-28 Spirituality is the magical word that gives mankind a feeling of divine bliss It is a sensation that often surpasses all the regulations of conventional religious beliefs Apparently the sensation of spirituality brings a kind of strength and confidence in human personality and also keeps one calm in times of distress In modern times many people consider themselves to be more spiritual than religious But what does religion have to do with the transcendental world of spirituality Which one of them came first Why does spirituality have such a deep impact over the human species How exactly we humans attained such a state where everything seems so very meaningful And the most sensitive question is was a divine intervention at all necessary for the seeds of spirituality to grow within the human mind In this exhilarating journey of neurobiology we find true biological answers to those questions

The Seven Basic Plots Christopher Booker, 2005-11-11 This remarkable and monumental book at last provides a comprehensive answer to the age old riddle of whether there are only a small number of basic stories in the world Using a wealth of examples from ancient myths and folk tales via the plays and novels of great literature to the popular movies and TV soap operas of today it shows that there are seven archetypal themes which recur throughout every kind of storytelling But this is only the prelude to an investigation into how and why we are programmed to imagine stories in these ways and how they relate to the inmost patterns of human psychology Drawing on a vast array of examples from Proust to detective stories from the Marquis de Sade to E T Christopher Booker then leads us through the extraordinary changes in the nature of storytelling over the past 200 years and why so many stories have lost the plot by losing touch with their underlying archetypal purpose Booker analyses why evolution has given us the need to tell stories and illustrates how storytelling has provided a uniquely revealing mirror to mankind's psychological development over the past 5000 years This seminal book opens up in an entirely new way our understanding of the real purpose storytelling plays in our lives and will be a talking point for years to come Philosophy Edward Craig, 2009 Philosophy is more than an intellectual pastime according to

Edward Craig His lively and engaging study shows that thinkers like Descartes Hegel Darwin and de Beauvoir responded to real needs and events and that many of their concerns shape our daily lives today Page 4 of cover **Philosophy: A Very**

Short Introduction Edward Craig, 2020-09-24 How ought we to live What really exists How do we know This Very Short Introduction discusses some of the key questions philosophy engages with Edward Craig explores important themes in ethics and the nature of knowledge and the self through readings from Plato Hume Descartes Hegel Darwin and Buddhist writers Throughout he emphasizes why we do philosophy explains how different areas of philosophy are related and explores the contexts in which philosophy was and is done This new edition includes a new chapter on free will discussing determinism and indeterminism in the context of Descartes and Hegel's work Craig also covers the Problem of Evil and Kant's argument on the source of moral obligation ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new

Coming Full Circle Parth Atrey,2017-06-01 *Coming Full Circle* *Redefining God in the Age of Reason* takes us on a journey that explores how conceptions of God have evolved over 5 000 years of human history This evolution takes us from the Vedic Rt to Plato s forms Spinoza s substance and Einstein s mind of God In the process we are treated to the wisdom of the ages Parth Atrey leads us to the incredible realization that our modern definition of God is completely consistent with the definition of God put forth by our most ancient ancestors We have come full circle Parth discusses the importance of faith and why it often trumps rationality He shows why it is important to define God in a way that satisfies both our rational and our emotional needs Reconciling rationality with deeply held faith and belief brings us full circle again back to our most ancient religious roots It also provides the only path to reducing religious conflict eliminating superstition and making this

world a more peaceful place for all of humanity Join this fascinating journey through the annals of time and through faith belief and rationality and emerge with a refreshing perspective and perhaps your own personal definition of God redefining god com The Evolution of Love Sheldon W. Liebman,2021-04-06 This book an examination of Judaism as it evolved over a period of approximately 1 500 years is an analysis of the Hebrew Bible and other ancient Jewish writings with special emphasis on theology and morality By the middle of the first millennium with the writing of Deuteronomy the Psalms and the works of the prophets Judaism had embraced the idea that God is a compassionate father that His relationship with His people is based on love rather than fear and that His response to their commission of sins is based on the assumption that they are capable of repentance and worthy of forgiveness In the final stage of its development culminating in the first and second centuries AD Judaism was understood to require its adherents to enact the will of God specifically to establish a community based on political economic and social laws that enforce the principles of justice and mercy And that process came to be seen as inevitably dependent on human agency the need for human beings to fulfill God s commandments In Judaism loving neighbors and strangers came to be understood as the principal and for many Jews the only way of loving God

The Hindus Wendy Doniger,2010-09-30 An engrossing and definitive narrative account of history and myth that offers a new way of understanding one of the world s oldest major religions The Hindus elucidates the relationship between recorded history and imaginary worlds Hinduism does not lend itself easily to a strictly chronological account many of its central texts cannot be reliably dated even within a century its central tenets karma dharma to name just two arise at particular moments in Indian history and differ in each era between genders and caste to caste and what is shared among Hindus is overwhelmingly outnumbered by the things that are unique to one group or another Yet the greatness of Hinduism its vitality its earthiness its vividness lies precisely in many of those idiosyncratic qualities that continue to inspire debate today Wendy Doniger is one of the foremost scholars of Hinduism in the world With her inimitable insight and expertise Doniger illuminates those moments within the tradition that resist forces that would standardize or establish a canon Without reversing or misrepresenting the historical hierarchies she reveals how Sanskrit and vernacular sources are rich in knowledge of and compassion toward women and lower castes how they debate tensions surrounding religion violence and tolerance and how animals are the key to important shifts in attitudes toward different social classes The Hindus brings a fascinating multiplicity of actors and stories to the stage to show how brilliant and creative thinkers many of them far removed from Brahmin authors of Sanskrit texts have kept Hinduism alive in ways that other scholars have not fully explored In this unique and authoritative account debates about Hindu traditions become platforms from which to consider the ironies and overlooked epiphanies of history *Many Paths, Many Truths* Leo Rastogi, PhD,2021-08-30 Have you ever wondered why there is so much religious diversity in the world How did this story of humanity begin and what ancient wisdom has been lost along the way Can you believe in God and not be religious Or simply put why do human beings have a need to believe in

something anything This book is a journey through the genesis of faith the evolution of ancient spiritual practices the dawn of major world religions and an exploration of the emerging frontiers of New Age spirituality **The Upanisads** Signe Cohen, 2017-09-27 The Upanisads are among the most sacred foundational scriptures in the Hindu religion Composed from 800 BCE onwards and making up part of the larger Vedic corpus they offer the reader knowledge lessons on life death and immortality While they are essential to understanding Hinduism and Asian religions more generally their complexities make them almost impenetrable to anyone but serious scholars of Sanskrit and ancient Indian culture This book is divided into five parts Composition authorship and transmission of the Upanisads The historical cultural and religious background of the Upanisads Religion and philosophy in the Upanisads The classical Upanisads The later Upanisads The chapters cover critical issues such as the origins of the Upanisads authorship and redaction as well as exploring the broad religious and philosophical themes within the texts The guide analyzes each of the Upanisads separately unpacking their contextual relevance and explaining difficult terms and concepts The Upanisads A Complete Guide is a unique and valuable reference source for undergraduate religious studies history and philosophy students and researchers who want to learn more about these foundational sacred texts and the religious lessons in the Hindu tradition
