Multilingual classroom contexts Prof Christa van der Walt, Dr Verbra Pfeiffer, 2021-12-01 By far the majority of South African students get their schooling in a second language which means that our classrooms are multilingual This state of affairs is not exclusive to our country as can be seen in the many academic conferences on multilingual learning and teaching Terms like translanguaging and biliteracy appear in many articles and books that discuss the role language in education What makes the multilingual nature of our South African classrooms challenging is the fact that many learners switch from one language of learning and teaching to another at various points in their school career from home language to English or Afrikaans after the foundation phase from one language of learning and teaching to another when they move to new schools high school or tertiary institutions This book is an attempt to highlight the transitions from home to school from foundation to intermediate phase from primary to high school and from high school to tertiary institutions

Research in Education, 1968 **Education for All 2000-2015: Achievements and challenges** UNESCO, 2015-04-08 Literaturverz S 414 459 Social Science Abstracts, 1929 Language, Literacy and Learning in Primary Schools Olatunde A. Adekola, 2007 Language Literacy and Learning in Primary Schools is a synthesis of the findings arising from four years of policy research and development in Nigeria's primary schools that focused on the gap between what teachers should know and be able to do and the realities of teaching and learning in classrooms It begins by critically examining the outcomes of primary schooling as measured by learning achievement results from national assessments and by identifying some core learning problems for Nigerian primary school children It reviews the findings from recent research reports that studied teaching and learning processes in primary school classrooms and it identifies the pedagogical issues in primary classrooms that contribute to poor learning achievements This report describes a research and development program that set out to improve teaching and learning in core learning skill areas of the curriculum This study identifies priority areas for teachers professional development It suggests a policy framework for the continuing professional development of primary school teachers including the initial preparation of teachers and their induction into teaching It proposes medium and long term strategies to bring about the desired changes in teaching and learning through school based approaches to teacher development

Tests in Print Oscar Krisen Buros, 2006 **Assessing Academic Literacy in a Multilingual Society** Albert Weideman, John Read, Theo du Plessis, 2020-11-02 South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a minority of the national population are native speakers of these languages Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools The focus of this book is on procedures for assessing the academic

language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience
