House Spiders - Worldwide Wolfgang Nentwig, Jutta Ansorg, Paula E. Cushing, Yvonne Kranz-Baltensperger, Christian Kropf, 2025-01-03 To avoid any misunderstandings this book is not about spiders as pets but about those spiders that live in our houses and apartments as lodgers Mostly ignored and sometimes wrongly feared there is hardly a building in the world that does not harbour some species of spider What is fascinating is that we always find the same species These spiders must have special adaptations because the humidity in our homes is far too low they are too clean and the food supply is usually scarce However those spiders that have made the leap into our four walls are rewarded with a worldwide right to stay This in turn is due to people's eagerness to trade and migrate worldwide Humans tirelessly transport their belongings and an endless stream of goods around the world in sacks parcels and containers And our domestic spiders as stowaways travel just as tirelessly and unrecognized It is therefore possible to present domestic spiders found throughout the world in a single book as they are essentially the same everywhere The 50 or so most important species and species groups are presented here in a generally understandable way with a detailed profile photos and distribution maps The authors of this book are experts who work at museums universities and in administration in Europe and North America They are not only recognized

scientists but have also been avowed spider fans for decades The National Curriculum Outdoors: Year 6 Sue Waite,Michelle Roberts,Deborah Lambert,2020-06-25 Part of the National Curriculum Outdoors series aimed at improving outside the classroom learning for children from Year 1 to Year 6 Teaching outside the classroom improves pupils engagement with learning as well as their health and wellbeing but how can teachers link curriculum objectives effectively with enjoyable and motivating outdoor learning in Year 6 The National Curriculum Outdoors Year 6 presents a series of photocopiable lesson plans that address each primary curriculum subject whilst enriching pupils with the benefits of learning in the natural environment Outdoor learning experts Sue Waite Michelle Roberts and Deborah Lambert provide inspiration for primary teachers to use outdoor contexts as part of their everyday teaching and showcase how headteachers can embed curriculum teaching outside throughout the school whilst protecting teaching time and maintaining high quality teaching and performance standards All of the Year 6 curriculum lessons have been tried and tested successfully in schools and can be adapted and developed for school grounds and local natural environments What s more each scheme of work in this all encompassing handbook includes primary curriculum objectives intended learning outcomes warm up and main activities plenary guidance natural connections ICT and PSHE links and word banks Please note that the PDF eBook version of this book cannot be printed or saved in any other format It is intended for use on interactive whiteboards and projectors only
