Mihocko,2011 The story of combat service support during Operation Iraqi Freedom I is one that could have been easily overlooked by history except what would have been lost is more than a simple tale of Marines performing exceptionally during a time of war Lost would have been a recollection of historical firsts an account of extraordinary vision and insight from some of the Marine Corps top leaders and a chronicle of miracles performed in the heat of battle by individuals who rarely receive the glory and praise of their front line combat counterparts This monograph tells the story of the Marines and sailors from 1st Force Service Support Group and 2nd Force Service Support Group whose combined efforts helped pave the way for the Marine Corps success during operation Iraqi Freedom I The author Lieutenant Colonel Melissa D Mihocko is a supply officer who has served as a field historian with the History Division since 2002 Before this service Lt Col Mihocko was assigned to 4th Civil Affairs Group and deployed twice to the

Balkans and once during a MEU's Mediterranean deployment. In 2003, just months after joining the detachment, she mobilized and deployed as a field historian in support of Operation Iraqi Freedom. Between February and May of that year, LtCol Mihocko was assigned to 1st Force Service Support Group and traveled to Kuwait and Iraq to collect more than 130 oral history interviews along with documents, artifacts, and photos. More important, however, she gained a firsthand look at the Marines Corps combat service support in action. Following her deployment, she remained on active duty and mobilized again to work on this monograph.

Combat Service Support in Desert Shield and Desert Storm Steven M. Zimmeck, 1999 United States Marines in the Persian Gulf 1990-1991 Tells the story of the Marines and sailors of the 1st Force Service Support Group, the 2d Force Service Support Group, Marine Wing Support Group 37, and the 3d Naval Construction Regiment whose combined efforts gave the I Marine Expeditionary Force the ability to eject Iraqi forces from Kuwait during Operation Desert Storm

US Battle Tanks 1946-2025 Steven J. Zaloga, 2024-11-07 A comprehensive and detailed illustrated examination of the development and combat performance of US battle tanks from the end of World War II through to the present day. In this, the second of two highly illustrated volumes telling the full history of the design, development, and operational use of US Army and US Marine Corps battle tanks, Steven J. Zaloga takes the story from the end of World War II through the US-Soviet rivalry of the Cold War period right up to the latest developments in American armored technology. *US Battle Tanks 1946-2025* draws and expands on material published in Osprey's New Vanguard and Duel series to explain how the US Army attempted to come to grips with the challenges of the nuclear battlefield and examines the introduction of new tank designs such as the famous Patton tank series as well as short-lived attempts to develop more radical tanks such as the T95. It covers the overly ambitious and failed MBT 70 tank program and the more austere M1 Abrams that followed, a tank that proved to be the best US tank design of the post-World War II period and one that is still in service today. Published in association with the AUSA Book Program offering quality books about US Army heritage, military theory and policy, and security in the modern world. *TANKER TECHNIQUES MAGAZINE 08*, Armor, 1997
