VAAI UNIVERSITY OF TECHNOLOGY **POSTDOCTORAL RESEARCH FELLOWSHIP APPLICATION FORM -** **2022**

INSTRUCTIONS

1. The application form must be completed (typed) and signed by the Postdoctoral Fellow.
2. In order to qualify for a Vaal University of Technology Postdoctoral fellowship, the following criteria will be considered during the selection process:
 - Candidates must be available for **FULL-TIME RESEARCH** at the Vaal University of Technology.
 - Candidates will be awarded a tenure of one year only that is renewable for a maximum of two years, subject to satisfactory performance and motivation from the respective Principal Investigator (PI)/Host.
 - The Fellowship is valued at a tax exempt **R300, 000.00** per annum (Three Hundred Thousand Rand), and there are no benefits attached to this remuneration.
 - Candidates must have obtained their doctoral degrees within the **LAST FIVE YEARS** (2017 being the latest date of the degree being awarded).
 - Fellowships are awarded on a competitive basis, taking the Applicant's academic achievements and a good motivation as researcher into account. Applicants are encouraged to ensure that a full list of their publications is included in the CV section of the application form.
 - As the fellowship is primarily to enable the Postdoctoral Research Fellow (PDF) to focus on research, the fellowship holder may **NOT HOLD FULL-TIME SALARIED EMPLOYMENT** concurrently with tenure of the fellowship, however he/she will be allowed to undertake a maximum of twelve hours per week of teaching related work.
 - All awardees will be required to enter into a signed agreement with the Vaal University of Technology.
 - Any qualification obtained outside South Africa should be evaluated by the South African Qualification Authority (SAQA) and proof thereof must accompany the application.
 - It is the responsibility of the PI, to identify, screen, interview (with an interview panel) and select potential post-doctoral research fellows. Proof of the interview or screening method must be attached to the application form.
 - Once this selection process has been completed, all completed documents must be submitted to the Research Directorate for necessary processing.
 - Please note that there is little purpose in pursuing an application unless there is a clear commitment by a department to provide necessary facilities (office space, lab equipment etc.).
3. Applicants may submit these documents via email to their potential Principal Investigator (PI)/Host or to Mr Mahlaule Vulani.
4. The PI must submit completed forms with all the necessary documentation to Mr VC Mahlaule (vulanim@vut.ac.za) in both physical and electronic form.

management systems can be adapted into higher education to assess and improve an institution's standards. These strategies are now playing a vital role in educational areas such as teaching learning and institutional level practices. However, quality management tools and models must be adapted to fit with the culture of higher education.

Quality Management Implementation in Higher Education: Practices, Models and Case Studies is a pivotal reference source that explores the challenges and solutions of designing quality management models in the current educational culture. Featuring research on topics such as Lean Six Sigma, distance education and student supervision, this book is ideally designed for school board members, administrators, deans, policymakers, stakeholders, professors, graduate students, education professionals and researchers seeking current research on the applications and success factors of quality management systems in various facets of higher education.

Deanship in the Global South Oliver J.J. Seale, 2021-02-08

The university today is a postmodern, neo-liberal, competitive, boundary-less knowledge conglomerate, a far cry from its historical, traditional, classical and collegial roots. There is a body of literature on deanship that points to its evolving nature in the contemporary academe, characterised by complexity and change. Balancing academic demands simultaneously with the requirements for effective performance, leadership and management lies at the heart of this very challenging bridging role. Nowadays, Deans are generally former academics emerging from a traditional collegial space and often catapulted into the relatively unknown domain of executive management with its related problems. Deans nowadays are required to be more than collegial intellectual leaders. They are also meant to be fiscal and human resource experts, fundraisers, politicians and diplomats.

Deanship in the Global South: Bridging Troubled Waters is about the deans' lived reality as they try to balance the demands of both the academe from which they emerge and the administration to whom they now need to account. Their lack of preparation and inadequate support points to the need for a more strategic, integrated approach to leadership development within their critical bridging roles between the academe and administration.

Cyclones in Southern Africa Godwell Nhamo, David Chikodzi, 2021-09-28

Tropical cyclones in Southern Africa, also known as hurricanes or typhoons in other regions of the world, is a hot subject for academic research. This focus has been magnified by the need to consider tropical cyclones in the context of other global development agendas that includes the 2030 Agenda for Sustainable Development and its inseparable 17 Sustainable Development Goals (SDGs), the Paris Agreement, the Sendai Framework for Disaster Risk Reduction and Habitat III's New Urban Agenda. The ambitious SDGs challenge global and community leaders to make sure development addresses the nexus among poverty, inequality and employment creation as well as care for the earth and its natural resources and biodiversity. The SDGs further present an agenda to eradicate hunger, bring quality education and sustain water and sanitation. The infrastructure development, human settlements, sustainable consumption and production, climate change, biodiversity and the ocean/blue economy agendas are also pitched. Lastly, the 2030 Agenda for Sustainable Development encourages partnerships on delivering various programmes and projects at all spatial levels. However, as tropical cyclones continue to make multiple

landfalls and ravage Southern Africa and other parts of the world the achievement of the 2030 Agenda for Sustainable Development is threatened To this end this book addresses this gap by documenting the implications of tropical cyclones drawing examples and case studies from recent tropical cyclones such as cyclone Idai and cyclone Kenneth that resulted in catastrophic impacts in 2019 The book comes as part of a series with three volumes The other volumes include Cyclones in Southern Africa Vol 1 Interfacing the Catastrophic Impact of Cyclone Idai with SDGs in Zimbabwe and Cyclones in Southern Africa Vol 2 Foundational and Fundamental Topics Given the foregoing the book is suitable as a read for several professionals and disciplines such as tourism and hospitality studies economics sustainable development development studies environmental sciences arts geography life sciences politics planning and public health
