## Chapter 13

### Liabilities

- Per FASB: "Probable and future sacrifices arising from present obligations of a particular entity to transfer assets or provide services to other entities in the future as a result of past transactions or events"

### Essentials:

1. Present Obligation
  - a. Entails settlement by probable future transfer of current assets or service
    - i. Cash
    - ii. Goods (inventory)
    - iii. Services
2. It is unavoidable
3. The transaction or event creating the obligation has already occurred

### Current Liabilities

- "obligations whose *liquidation* is reasonably expected to require use of existing resources properly classified as current assets, or the creation of other current liabilities."

### Types:

#### A. Accounts Payable

→ Balances owed to others for goods, supplies, or services purchased on open account

- Amount to be paid is straight forward (because of documentation – receipt)
- Only possible if there are terms of sale (EX: 2/10, n/30 or 1/10, E.O.M)

#### Entry (Periodic)

|                  |     |      |
|------------------|-----|------|
| Purchases        | XXX |      |
| Accounts Payable |     | XXXX |

#### Entry (Perpetual)

|                  |     |     |
|------------------|-----|-----|
| Inventory        | XXX |     |
| Accounts Payable |     | XXX |

### B. Notes Payable

- Written promises to pay certain sum of money on a specified future date
  - o Arise from purchases (trade not payables)
    - More formally written
  - o Financing (borrowing from institutions)
  - o Classified as short-term (current) if matures within a year → long-term if longer

→ There is cost paid for borrowing a note: INTEREST

1. Interest Bearing
2. Zero Interest Bearing

- Methods for preparing short term computations are the same as long term

#### Interest Bearing Note

→ written agreement that explicitly states the interest rate to be charged on the principal amount of the note

- **INTEREST IS ALWAYS STATED AT ANNUAL RATE**

EX: \$100,000, 6 percent, 4 month-note

#### Entry (recording the cash received)

|               |     |     |
|---------------|-----|-----|
| Cash          | XXX |     |
| Notes Payable |     | XXX |

Entry (Accrual of the interest during the financial statement preparations → can be annual or semiannual)

|                  |     |     |
|------------------|-----|-----|
| Interest Expense | XXX |     |
| Interest Payable |     | XXX |

#### Entry (Payment of Note/Interest at Maturity Date)

|                  |     |      |
|------------------|-----|------|
| Notes Payable    | XXX |      |
| Interest Payable | XXX |      |
| Cash             |     | XXXX |

#### Zero-Interest Bearing Note

→ Written agreement that does not explicitly state the interest rate to be charged on the principal amount of the note

- The lender **discounts** the amount of the note at 'present value' equivalent using the repayment time as the number of periods
- The discount rate used is the return the lender wants to make on the borrowing
  - o The discount rate becomes the cost of borrowing
- Lender gives the borrower the PV amount in cash when the note is signed
- Borrower repays the full-face amount/principal on the note
