The Oxford Guide to Australian Languages Claire Bowern, 2023-06-19 The Oxford Guide to Australian Languages is a wide ranging reference work that explores the more than 550 traditional and new Indigenous languages of Australia Australian languages have long played an important role in diachronic and synchronic linguistics and are a vital testing ground for linguistic theory Until now however there has been no comprehensive and accessible guide to their vast linguistic diversity This volume fills that gap bringing together leading scholars and junior researchers to provide an up to date guide to all aspects of the languages of Australia The chapters in the book explore typology documentation and classification linguistic structures from phonology to pragmatics and discourse sociolinguistics and language variation and language in the community The final part offers grammatical sketches of a selection of languages sub groups and families At a time when the number of living Australian languages is significantly reduced even compared to twenty years ago this volume establishes priorities for future linguistic research and contributes to the language expansion and revitalization efforts that are underway

Routledge Handbook of Ecotourism David A. Fennell, 2021-09-21 This handbook presents a timely broad ranging and provocative overview of the essential nature of ecotourism The chapters will both advance the existing central themes of ecotourism and provide challenging and divergent observations that will thrust ecotourism into new areas of research policy and practice The volume is arranged around four key themes sustainability ethics and identity change conflict and consumption and environment and learning with a total of 28 chapters The first section focuses on sustainability as a core ecotourism criterion with a primary focus on some of the macro sustainability issues that have an impact on ecotourism Foremost among these topics is the

linkage to the UN's Sustainable Development Goals which have relevance to ecotourism as one of the greenest or most responsible forms of tourism. The chapters in the second section provide a range of different topics that pull ecotourism research into new directions including a chapter on enriching indigenous ecotourism through culturally sensitive universalism. The third section includes chapters on topics ranging from persons with disabilities as a neglected body of research in ecotourism to ecotourism as a form of luxury consumption. The final section emphasises the link between ecotourism and learning about the natural world including a deeply theoretical chapter on rewilding Europe. With contributions from authors around the world, this handbook gives a global platform to local voices in both developed and emerging country contexts. The multidisciplinary and international Routledge Handbook of Ecotourism will be of great interest to researchers, students and practitioners working in tourism and sustainability.

Handbook of Research on Teaching Strategies for Culturally and Linguistically Diverse International Students Smith, Clayton, Zhou,

George, 2022-05-06. As the world moves toward an integrated global society, it is essential for teachers to understand the potential cultural and linguistic differences present in students. Many classrooms have accidentally made themselves exclusionary through rigid instruction. Teaching strategies must be flexible to cater to a diverse range of students. By catering to a wider range of students, the education system grows more inclusive, and a higher volume of educated citizens are produced. The Handbook of Research on Teaching Strategies for Culturally and Linguistically Diverse International Students explores the promising practices for teaching linguistically and culturally diverse international students within post-secondary educational institutions. This book presents student voice as it relates to student satisfaction and student perceptions of learning. Covering topics such as learning technology integration, student engagement, and instruction planning, it is an essential resource for faculty of higher education, university administration, preservice teachers, academicians, and researchers.
