The Autocar, 1987 *Practical Policing Skills for Student Officers* Sue Madsen, 2007-07-12 The Initial Police Learning and Development Programme IPLDP is structured around National Occupational Standards NOS against which new officers will be trained and assessed This book written by police officers introduces student officers to the key competency areas and elementary skills required It introduces the key policing skills and guides the reader through typical scenarios addressing issues in the context of modern policing and of the relevant professional competencies and occupational standards This latest edition has been expanded with chapters on the core policing skills and includes references to the NOS **Serial Killers and Mass Murderers** Nigel Cawthorne, 2007-01-25 SHOCKING TRUE STORIES OF THE WORLD'S MOST BARBARIC CRIMINALS Revealing portraits of the most notorious killers of our time Jeffrey Dahmer The Zodiac Killer Dr Harold Shipman Son of Sam The Columbine Killers Charles Manson The Night Stalker The Yorkshire Ripper Ted Bundy Charles Starkweather The Boston Strangler Serial Killers Mass Murderers takes you into the minds of the criminals who committed

the world's most notorious and horrifying crimes. Each of the sadistic murderers profiled here was once known simply as someone's neighbor, co-worker or child. What turned them into killers? In one chilling chapter after another, this book profiles a terrifying succession of homicidal maniacs and asks the question: What makes them tick? The refrigerator contained meat including a human heart in plastic bags. There were three human heads in the freezer. Two more skulls were found in a pot on the stove. Another pot contained male genital organs and severed heads, and there were the remains of three male torsos in the trash.

New Directions in the Analysis of Multimodal Discourse Terry D. Royce, Wendy L. Bowcher, 2007. *New Directions in the Analysis of Multimodal Discourse* offers a comprehensive international view of multimodal discourse and presents new directions for research and application in this growing field. There has long been a need for a volume that addresses multimodal communication from both a theoretical and a practical perspective, with contributions from top scholars around the world. This work opens up the field of multimodal discourse analysis as it covers a wide range of interests such as computational linguistics, education, ideology and media discourse. The range and scope of the chapters in this book provide groundbreaking insights into exploring and accounting for the various facets of multimodality in a range of texts and contexts. Initial chapters specifically aim to tackle theoretical issues, while subsequent chapters focus on important research areas such as writing and graphology, genre, ideology, computational concordancing, literacy and cross-cultural and cross-linguistic issues. In the final chapters, an emphasis is placed on the educational implications of multimodality in first and second language contexts, a particularly new and interesting contribution. This volume will have wide appeal and is suitable for any researcher or educator interested in multimodality and its applications in social interaction.

Economic Patriotism in Open Economies Ben Clift, Cornelia Woll, 2013-09-13. The recent financial crisis has demonstrated that governments continuously seek to steer their economies rather than leaving them to free markets. Despite the ambitions of international economic cooperation, such interventionism is decidedly local. Some politicians even proudly evoke economic patriotism to justify their choices. This volume links such populism to a specific set of tensions: the paradox of neo-liberal democracy and argues that the phenomenon is ubiquitous. The mandate of politicians is to defend the economic interests of their constituents under conditions where large parts of economic governance are no longer exclusively within their control. Economic patriotism is one possible reaction to this tension. As old-style industrial policy and interventionism gained a bad reputation, governments had to become creative to assure traditional economic policy objectives with new means. However, economic patriotism is more than just a fashionable word or a fig leaf for protectionism. This volume employs the term to signal two distinctions: the diversity of policy content and the multiplicity of territorial units it can refer to. Comparing economic interventionism across countries and sectors, it becomes clear that economic liberalism will always be accompanied by counter-movements that appeal to territorial images. This book was published as a special issue of the *Journal of European Public Policy*.
