802.11ac: A Survival Guide Matthew S. Gast, 2013-07-23 The next frontier for wireless

LANs is 802.11ac a standard that increases throughput beyond one gigabit per second. This concise guide provides in depth information to help you plan for 802.11ac with technical details on design, network operations, deployment and monitoring. Author Matthew Gast, an industry expert who led the development of 802.11-2012 and security task groups at the Wi-Fi Alliance, explains how 802.11ac will not only increase the speed of your network but its capacity as well. Whether you need to serve more clients with your current level of throughput or serve your existing client load with higher throughput, 802.11ac is the solution. This book gets you started. Understand how the 802.11ac protocol works to improve the speed and capacity of a wireless LAN. Explore how beamforming increases speed and capacity by improving link margin and lays the foundation for multi-user MIMO. Learn how multi-user MIMO increases capacity by enabling an AP to send data to multiple clients simultaneously. Plan when and how to upgrade your network to 802.11ac by evaluating client devices, applications and network connections.

Stage Lighting Second Edition Richard E. Dunham, 2018-10-16. *Stage Lighting: The Fundamentals* is written specifically for introductory stage lighting courses. The book begins with an examination of the nature of light perception and color, then leads into a conversation of stage lighting equipment and technicians. Lamps, luminaires, controls, dimming and electricity form the basis of these chapters. The book also provides a detailed explanation and overview of the lighting design process for the theatre and several other traditional forms of entertainment. Finally, the book explores a variety of additional areas where lighting designers can find related future employment, such as concert and corporate lighting, themed design, architectural and landscape lighting, and computer animation. New for this edition: enlarged full color illustrations, photographs, light plots and examples of lighting design, updated information on LED lighting and equipment, expanded discussion of the practical use of color as a designer, expanded discussion of psychological/perceptual effects of color, new discussion of color mixing through light sources that make use of additive mixing, expanded discussion of industry professions, expanded discussion and illustrations relating to photometrics, expanded discussion and examples of control protocols and new equipment, and updated designer profiles along with the addition of still more designer profiles. *jMonkeyEngine 3.0 Beginner's Guide* Ruth Kusterer, 2013-01-01. With plenty of practical examples, screenshots and example code, create a complete game step by step. Learn by doing. Less theory, more results. If you have an inventive mind, are experienced in Java, enjoy looking through the smoke and mirrors of VFX, and the world of game mechanics, then this book is for you. *Stage Lighting* Richard E. Dunham, 2018-12-07. *Stage Lighting: Design Applications and More* builds upon the information introduced in *Stage Lighting: The Fundamentals* to provide an in depth reference to a number of specialty areas of lighting design, from traditional applications such as drama, dance and designing for different venues, to more advanced applications such as concert, corporate, film and video, virtual architectural landscape and other forms of entertainment lighting. Each chapter gives the essential background, design practices and equipment details for each specialization, so readers can make informed decisions and ask informed questions when encountering each field. The book provides insight on the latest technology and

includes profiles of prolific designers such as James Moody Jeff Ravitz Alan Adelman and Paul Gregory Stage Lighting Design Applications and More is intended to help lighting designers translate their theatrical skills to other areas of lighting design and provides guidance on how to take those initial steps into new ventures in their lighting careers **John Zukowski's**
