

1. Introduction

This service manual contains detailed descriptions of all the typical repair and servicing procedures for this power tool.

Refer to the illustrated spare parts lists during all repair work. These lists show the installation position and order in which the individual parts and modules should be assembled.

Refer to the latest edition of the relevant parts list to check the part numbers of any replacement parts required.

A fault on the machine may be due to several causes. To help locate the fault, consult the chapter on "Troubleshooting" and the "STIHL Service Training System" for all function groups.

Refer to the "Technical Information" bulletins for engineering changes which have been introduced since publication of this service manual. Technical information bulletins also supplement the parts list and service manual until an updated edition is issued.

The special tools mentioned in the descriptions are listed in the chapter "Special Servicing Tools" of this manual. Use the part numbers to identify the tools in the STIHL Special Tools manual. It lists all the special servicing tools currently available from STIHL.

Symbols are included in the text and pictures for greater clarity. The meanings are as follows:

In the text:

- → Action to be taken as shown in the illustration above the text
- → Action to be taken but not shown in the illustration above the text

In the illustrations:

- ➡ Item pointer (short)
- ➡ Direction of movement (long arrow)

(1: 4.2) → Reference to another chapter, i.e. to chapter 4.2 in this case.

Service manuals and technical information bulletins are intended exclusively for the use of properly equipped repair shops. They must not be passed on to third parties.

Servicing and repairs are made considerably easier if the machine is mounted on assembly stand (3) 5910 890 3100. For this purpose, secure the clamp (2) 5910 890 2000 to the assembly stand with two screws (1). Engage the adjusting screw and stud in the outer holes of the clamp and secure the chainsaw with the nut (arrow).

The sprocket cover and bar and chain must be removed first; pull the hand guard back against the front handle for this purpose.

Always use original STIHL replacement parts. They can be identified by the STIHL part number

STIHL logo

and the STIHL parts symbol

The symbol may appear alone on small parts.
