Neanderthal Alive Jan Thor Simonson, 2024-10-02 Khipa Shulgin is a reindeer herder and wildlife guide living with his brothers on an island in the Kamchatka Peninsula Khipa has inherited a life threatening heart ailment and travels to the mainland village of Ossora for medical help After a physical examination the doctor orders genetic testing and refers Khipa to a cardiologist in Vladivostok While waiting for his travel arrangements to be finalized Khipa

discovers a poacher's cache and gathers a bear paw as evidence. In Vladivostok Khipa delivers the paw to a geneticist who uses DNA to convict wildlife criminals. Khipa also connects with an undercover cop who chases poachers and the bear paw becomes key evidence in breaking up a poaching ring. As Khipa undergoes medical treatment, archaeologists working at a dig site on his island uncover stone tools made by Neanderthals, and speculation arises that Khipa and his brothers are living Neanderthals. Khipa asks the geneticist to examine his DNA profile to quash these rumours, hoping to prove he's a modern human and preserve his traditional lifestyle. Instead, Khipa learns he is 85% Neanderthal. To further complicate matters, the government collects DNA from his brothers, and a global storm of interest is unleashed. As he comes to terms with his genetic lineage and with a life-saving device in his chest, Khipa takes on a legal battle to save his island and his people from developers and speculators. In so doing, Khipa uncovers dark secrets from Kamchatka's past and the sordid world of wildlife trafficking. Above all, he learns to survive as a Neanderthal in the modern world. The narrative transports the reader back in time to the Neanderthal era. Onar and his clan meet a strange and hostile human, *Homo sapiens*, but fail to build friendly relations. Kidnappings, thievery, and violence break out, and the Neanderthals struggle to defend their homes and territories. When game becomes scarce and starvation threatens their survival, Onar's descendants abandon their homeland and disappear into the mist to become one of earth's uncontacted peoples until the modern world discovers Neanderthals are still alive.

Nihilism from what might be called the Faustian revolution symbolized by Faust's pronouncement. In the beginning was the Deed. Redner reflects on the passage of the three main Fausts from Marlowe's to Goethe's to Thomas Mann's and this reflection serves as the dramatic metaphor for a review of the relationship of Progress to Nihilism in modern civilization. Starting with an exposition of the key Faustian thinkers Marx, Nietzsche, Wittgenstein and Heidegger, the book proceeds by examining the dominant modern ideas on Man, Time and Nihilism with reference to Foucault, Derrida and Althusser. It focuses on Language which is a key preoccupation of all these thinkers but has not yet been taken far enough to afford a basis for the explanation of fundamental changes in civilization. Language in its creative and destructive functions as constituting both the conscious and unconscious of a culture is reconceived so as to account for the hidden link between Progress and Nihilism. The author then explores sociologically the dominant aspects of Progress in terms of the ideas of Weber, Adorno and Marcuse on Technology, Subjectivity and Activism. Finally an extensive literary study of the three main Fausts concludes with a coda on the future of music. *In the Beginning Was the Deed* is lucid and direct, tinged with wry humor. Redner represents Man in the nuclear age and reflects on that representation seeking to comprehend our era, draw ethical and political conclusions and explore action as a response to the threat of annihilation.
