A Curriculum of Hope Debra Kidd, 2020-01-20 Written by Debra Kidd A Curriculum of Hope As rich in humanity as in knowledge explores how good curriculum design can empower schools to build bridges between their pupils learning and the world around them A great many schools are wondering how they can build a curriculum model that meets the demands of government policy as well as the needs of the children and communities they serve In Curriculum of Hope Debra illustrates how teachers can deliver learning experiences that genuinely link knowledge to life Working on the premise that a strong curriculum is supported by five key pillars of practice coherence credibility creativity compassion and community she presents a plethora of examples that demonstrate how schools parents pupils and the wider local community can learn together to build from within Debra enquires into the ways in which schools can create units of work that are both knowledge and humanity rich and challenges the view that the role of children is simply to listen and learn instead advocating their active engagement with local and global issues She does so by delving into the role of pedagogy as a means of empowering children and by exploring some of the more overlooked pedagogical tools that can have a great impact on children s learning and well being story movement and play as well as some of the recent research into memory and retention Towards the back of the book you will find case studies demonstrating how teachers can work with both their own and other subject departments across the school to plan in ways that allow for pupil choice autonomy and responsibility Furthermore there are some accompanying planning documents for these examples provided in the appendix The Seed Catalogue which you may find useful and these documents are also available for download Suitable for teachers and leaders in all schools

The Stone Age Lesley-Ann Jones, 2022-08-02 An acclaimed rock and roll journalist evokes the legacy of The Rolling Stones iconic granitic commercially unstoppable as a collective and fascinating contradictory and occasionally disturbing as individuals As Lesley Ann Jones writes the Rolling Stones are still roaming the globe like rusty tanks without a war to go to Jumping jacking flashing posturing these septuagenarian caricatures with faces that might have been microwaved but coming on like eternal thirty year olds On 12th July 1962 the Rollin Stones performed their first ever gig at London s Marquee jazz club Down the line a g was added a spark was lit and their destiny was sealed No going back These five white British kids set out to play the music of black America They honed a style that bled bluesy undertones into dark insinuations of women sex and drugs Denounced as corruptors of youth and messengers of the devil they created some of the most thrilling music ever recorded Now their sound and attitude seem louder and more influential than ever Elvis is dead and the Beatles are over but Jagger and Richards bestride the world The Stones may be gathering moss but on they roll Yet how

did the ultimate anti establishment misfits become the global brand we know today Who were the casualties and what are the forgotten legacies Can the artist ever be truly divisible from the art Lesley Ann Jones s new history tracks this contradictory disturbing granitic and unstoppable band through hope glory and exile into the juggernaut years and beyond into rock s ongoing reckoning where the Stones seem more at odds than ever with the values and heritage against which they have always rebelled Good bad and often ugly here are the Rolling Stones as never seen before **Understanding and**
